DATA ITEM DESCRIPTION

Title: COMMERCIAL DERIVATIVE AIRCRAFT (CDA) AIRWORTHINESS CERTIFICATION DATA

Number: DI-SESS-81984A
Approval Date: 20211012
AMSC Number: F10273
Limitation: N/A
DTIC Applicable: No
GIDEP Applicable: No
Preparing Activity: 11 (AFLCMC/EZZ)
Project Number: SESS-2021-020
Applicable Forms: N/A

Use/Relationship: The Commercial Derivative Aircraft (CDA) Airworthiness Certification Data is used to document the certification process for CDA, substantiating data, and compliance artifacts. The data is used to support the Government's airworthiness type certification of the aircraft design. The data is limited to what is required by the Federal Aviation Administration (FAA) certification process. Additional data required by the United States Air Force (USAF) airworthiness process is separately addressed.

a. This Data Item Description (DID) is applicable to the acquisition and modification of CDA.

b. This DID contains the format, content, and intended use information for the data deliverable resulting from the work task described in the solicitation.

c. This DID supersedes DI-SESS-81984.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

2. Format. The CDA Airworthiness Certification Data deliverable shall be in the contractor's format.

3. Content. The CDA Airworthiness Certification Data shall contain the following:

a. FAA-approved airworthiness type certification process, planning, and compliance documents (refer to FAA Order 8110.4C, *Type Certification*, and FAA Order 8110.101A, *Type Certification Procedures for Military Commercial Derivative Aircraft*, [copies of these documents are available online at https://www.faa.gov], for additional information):

(1) Partnership of Safety Plan

(2) Project Specific Certification Plan

(3) Certification Basis

(4) Compliance Report

(5) Project Specific Certification Plan Agreement

(6) Type Certification Board Meeting Minutes

(7) Certification Program/Project Plan

(8) Issue Book (Issue Papers)

(9) Engineering Conformity Plan

Check the source to verify that this is the current version before use.

(10) Type Inspection Authorization(s)

(11) Type Inspection Reports

(12) Instructions for Continued Airworthiness (Maintenance Documents)

(13) Flight Manual (Supplement)

(14) Type Certificate (TC) and Supplement Type Certificates (STC)

(15) Data necessary to manage the airworthiness seam (refer to FAA Order 8110.101A, for additional information)

b. FAA Certificates of Airworthiness (refer to FAA Order 8130.2J, *Airworthiness Certification of Aircraft*, [copies of this document are available online at https://www.faa.gov], for additional information):

(1) Standard Airworthiness Certificate

(2) Special Airworthiness Certificate, Experimental Category, to perform research and development testing, show compliance, and FAA flight testing (including supporting airworthiness assessment, risk assessment, restrictions, and limitations)

c. Documentation of all Government-approved non-conformities with the FAA-approved type design (refer to FAA Form 8130-31, *Statement of Conformity – Military Aircraft*, [Copies of this form are available online at https://www.faa.gov]).

d. The applicable Distribution Statement, as necessary, in accordance with Department of Defense Instruction (DoDI) 5230.24, *Distribution Statements on Technical Documents*, Enclosure 4. (Copies of this document are available online at www.esd.whs.mil/DD.)

e. The applicable classification marking, as necessary, in accordance with Department of Defense Manual (DoDM) 5200.01, Volume 2, *DoD Information Security Program: Marking of Information*. (Copies of this document are available online at www.esd.whs.mil/DD.)

End of DI-SESS-81984A.
