DATA ITEM DESCRIPTION
Title: CONFIGURATION ITEM (CI) DOCUMENTATION RECOMMENDATION

Number: DI-SESS-82007B
AMSC Number: N10371
DTIC Applicable: No
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20221201
Limitation: N/A
GIDEP Applicable: No
Project Number: SESS-2023-005

Use/Relationship: The CI Documentation Recommendation details the development of contractor's recommendations for the designation of items as CIs in the contract work breakdown structure and its extensions, as well as the types of configuration documentation to be used to identify the configurations of CIs. The purpose of this data is to facilitate program management by further decomposition of the system architecture into logical components that will enhance systems engineering, integrated logistics support, and configuration management efforts. The data also provides the Government with technical rationale for selection of the most appropriate types(s) of configuration documentation to be used to describe the performance and physical requirements of CIs.

This DID contains the format, content, and intended use information for the data deliverable resulting from the work task described in EIA-649-1A and the principles of SAE/EIA-649C.

Copies of these standards are available online at https://www.sae.org or from SAE International, 400 Commonwealth Drive Warrendale, PA 15096-0001, Tel 877-606-7323 (inside USA and Canada) or 724-776-4970 (outside USA).

This DID supersedes DI-SESS-81879 and DI-SESS-82007A.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract as cited in the current issue of the MIL-STD-963C Department of Defense, Data Item Description.

The following references may be useful in defining content: SAE/EIA-649C, Configuration Management Standard; (Copies of the SAE documents are available online at https://www.sae.org . Copies of the DOD document are available online at https://quicksearch.dla.mil) to provide additional direction/guidance for CIs.

2. Format. The format shall be in the contractor's format.

3. Content. The content shall include the following:

3.1. Recommendations supported by rationale, for designating elements of the contract work breakdown structure, and its extensions; as Cis; and for the most appropriate type(s) of configuration documentation to be used to identify the configuration of those CI's.

End of DI-SESS-82007B
