2.2: Delete “UNIFORM CLASSIFICATION COMMITTEE” and the four lines following that heading and add the following:

“ASTM STANDARDS

D882 - Tensile Properties and Thin Plastic Sheeting.

(Application for copies should be addressed to ASTM, 1916 Race Street, Philadelphia, PA 191030)”

PAGE 3

3.3: Delete “4 pounds” and substitute “8 pounds per inch”.

PAGE 4

4.6: Delete paragraph 4.6 in its entirety and substitute the following:

“4.6 Seam strength. The bond strength of the seam shall be determined as specified in ASTM D-882. In determination of the bonding strength, the seam shall be at the center of the specimen and perpendicular to the center line. At least five specimens shall be tested for bond strength. The average of the bond tensile strength shall be as specified.”

PACE 5

Section 5: Delete in its entirety and substitute the following:

"5. PACKAGING

5.1 Interplant shipment (see 6.3). The carrier shall be unit packed and packed to provide adequate protection from physical damage from the supply source to the first receiving activity for immediate use or further processing. Shipping containers shall be in compliance with the rules and regulations applicable to the mode of transportations Marking shall be in accordance with FED-STD-123, and shipping containers shall include the contractors name, address, contract number, and date of manufacture.

5.2 Repair parts. When this item is being procured for storage and issue as a repair part, unit packing, packing and marking shall be as specified in SPI P5-4-1002.”

6.2: Add “(c) Degree (level of packaging protection (paragraph 5, above).”
