FEDERAL STANDARD STOCK CATALOG

Section IV

(Part 5)

FEDERAL SPECIFICATION

FOR

BRUSHES; SHOE

This specification was approved on the above date by the Director, Bureau of Federal Supply, for the use of all departments and establishments of the Government, and shall become effective not later than November 15, 1947, for use in procurement initiated on or after that date. It may be put into effect, however, at any earlier date after promulgation.

A. APPLICABLE SPECIFICATIONS

A–1. There are no other Federal specifications applicable to this specification.

B. TYPES AND GRADE

B–1. *Types.*—Shoe brushes in accordance with this specification shall be furnished in the following types, as specified in the invitation for bids: (See fig. 1.)

Type I.—Dauber brush.
Type II.—Polishing brush.

B–2. *Grade.*—Shoe brushes in accordance with this specification shall be of one grade.

C. MATERIAL AND WORKMANSHIP

C–1. *Material.*—

C–1a. *Block.*—The block shall be of close-grained hardwood, coated with varnish or other suitable organic coating or suitable wax.

C–1b. *Hair.*—The hair shall be 100 percent natural-color horsehair, thoroughly sterilized.

C–2. *Workmanship.*—The brushes shall be free from defects which affect their appearance or which may affect their serviceability.

D. GENERAL REQUIREMENTS

D–1. *Standard sample.*—The brushes shall be equal to the standard sample in workmanship and balance; in stiffness, solidity, quality, and kind of hair; and in any other respects not specifically covered in this specification. (See pars. I–1 and I–2.)

D–2. *Design.*—The brushes shall be of the general design illustrated in figure 1 for each type.

Check the source to verify that this

D–3. *Set.*—The hair shall completely fill the holes, and shall be securely staple-set in each hole.

E. DETAIL REQUIREMENTS

E–1. *Physical requirements.*—The brushes shall conform to the physical requirements in table I.

TABLE I.—*Physical requirements*

		Type I, dauber	Type II, polishing
Block:			
Length	inches	6±⅛	7¼±⅛
Width	do		2⅜±1/16
Brush part, minimum	do	1¾	
At center, minimum	inch	¾	
Handle part, minimum	do	1	
Thickness, minimum	do	½	
At center, minimum	do		13/16
At ends, minimum	do		½
● Holes for hair:			
Number of holes, minimum		31	116
Diameter, minimum	inch	5/32	3/16
Depth, minimum	do	5/16	5/16
Hair:			
Length of hair clear of block	do	⅞ to 1	⅞ to 1
Weight, minimum	ounce	0.277	1.50

E–2. *Construction.*—

E–2a. *Type I.*—

E–2a (1). *Block.*—The block shall be one flat piece, rounded at the ends. It shall be smoothly finished and there shall be no sharp edges. The brush part shall be circular, curving into a shaped handle.

E–2a (2). *Hair.*—The hair shall be arranged to form a circle about 1½ inches in diameter in the brush part of the block, and shall be evenly trimmed.

E–2b. *Type II.*—

E–2b (1). *Block.*—The block shall be one piece, rounded at the ends, and with a finger groove along each side. It shall be smoothly finished and there shall be no sharp edges.

F. METHODS OF SAMPLING, INSPECTION, AND TESTS

F–1. *Sampling.*—Two brushes shall be taken from each lot of 100 brushes or fraction thereof of each type delivered.

F–2. *Inspection.*—

F–2a. The brushes shall be inspected to determine compliance with this specification with respect to material and workmanship, the design and finish of the blocks, length of hair clear of block, dimensions, and the number and size of holes.

F–2b. The brushes shall be compared with the standard sample with respect to the requirements of paragraph D–1.

F–3. *Test.*—

F–3a. *Weight of hair.*—The hair shall be removed from the block and shall be conditioned for not less than 16 hours in air at a relative humidity of 65 ± 2 percent and at a temperature of 70° to 80° F. The weight of the hair shall be determined in the same atmosphere.

G. PACKAGING, PACKING, AND MARKING FOR SHIPMENT

G–1. *Packaging.*—Unless otherwise specified, commercial packages are acceptable.

G–2. *Packing.*—Unless otherwise specified, the subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to the point of delivery called for in the contract or purchase order.

G–3. *Marking.*—Unless otherwise specified, shipping containers shall be marked with the name of the article, type, and the quantity contained therein, as defined by the contract or order under which the shipment is made, the name of the contractor, and the number of the contract or order.

H. REQUIREMENTS APPLICABLE TO INDIVIDUAL DEPARTMENTS

H–1. The following departmental specifications and other publications, of the issues in effect on date of invitation for bids, and special requirements, shall form a part of this specification, and shall be applicable to purchases made under this specification by the respective departments:

H–2. *Army.*—U. S. Army Specification No. 100–2, Standard Specification for Marking Shipments by Contractors, copies of which may be obtained without cost upon application to the procuring agency.

H–3. *Navy.*—

H–3a. *Applicable specifications and other publications.*—

Navy Department Specification:
General Specifications for Inspection of Material.
Bureau of Supplies and Accounts Publication:
Navy Handbook on Packing and Materials Handling—Packaging, Packing, and Marking of Clothing, Small Stores, and Textiles.

H–3a (1). Copies of Federal specifications (required for Navy purchases) and Navy Department specifications may be obtained without cost upon application to the Bureau of Supplies and Accounts, Navy Department, Washington 25, D. C., except that Naval activities should make application to the Supply Officer in Command, Naval Supply Depot, Bayonne, N. J. When requesting specifications, refer to both title and number (or symbol).

H–3a (2). Applicable sections of the Navy Handbook on Packing and Materials Handling—Packaging, Packing, and Marking of Clothing, Small Stores, and Textiles may be obtained upon application to the Bureau of Supplies and Accounts, Navy Department, Washington 25, D. C. When requesting copies, bidders and contractors should state the specification number and complete nomenclature of the item to be packed, so that the proper sections may be forwarded.

H–3b. *Packaging, packing, and marking.*—Shipments shall be made in accordance with the requirements of the Navy Handbook on Packing and Materials Handling—Packaging, Packing, and Marking of Clothing, Small Stores, and Textiles.

I. NOTES

I–1. Purchasing officers should exercise any desired options offered herein and should specify the type of brush required and the location

Check the source to verify that this is the current version before use.

at which standard samples may be seen. (See pars. B–1, D–1, G–1, G–2, and G–3.)

I–2. *Standard sample.*—The standard sample is a reasonable facsimile of the master standard sample on file at the National Bureau of Standards, Washington, D. C. It is not intended that the master standard sample shall be used for the purpose of purchase or inspection of brushes, but that the master standard sample will be used by Government agencies for comparison purposes to obtain a standard sample for their own use in purchase and inspection.

I–2a. In order that uniform standards for brushes may be maintained among the various Government agencies, purchasers should forward brushes to the National Bureau of Standards for inspection and its opinion in order to obtain a standard sample equal to the master standard sample. The standard sample should then be preserved by the purchaser and used in the purchase and inspection of brushes obtained under this specification.

I–3. It is believed that this specification adequately describes the characteristics necessary to secure the desired material, and that normally no samples will be necessary prior to award to determine compliance with this specification. If, for any particular purpose, samples with bids are necessary, they should be specifically asked for in the invitation for bids, and the particular purpose to be served by the bid sample should be definitely stated, the specification to apply in all other respects.

I–4. Federal specifications do not include all types, classes, grades, sizes, etc., of the commodities indicated by the titles of the specifications, or which are commercially available, but are intended to cover the types, etc., which are suitable for Federal Government requirements.

I–5. An Index of Federal Specifications may be purchased as noted in the paragraph below, price to be obtained from the Superintendent of Documents.

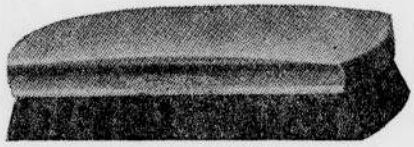

I–6. Copies of this specification may be obtained upon application, accompanied by postal note, money order, coupon, or cash, to the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Price 5 cents.

Notice.—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data, is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
