DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

1. TITLE	2. IDENTIFICATION NUMBER
Government Furnished Equipment/Government Furnished Material (GFE/GFM) Status Report	DI-QCIC-80735

3. DESCRIPTION/PURPOSE

3.1 The GFE/GFM Status Report identifies those items to be installed or shipped according to a contractually imposed schedule.

3.2 The report provides the current standing of GFE/GFM for the responsible agencies to take the necessary action concerning the items.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
890117	A/AMCPD		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the GFE/GFM Status Report resulting from the work task described by 7.2.1 of MIL-Q-9858A.

7.2 Keypunched EAM card data should be transmitted via Autodin when the equipment is available. Otherwise transmit via first class mail. Magnetic tape should be transmitted via first class mail.

(Continued on Page 2)

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		A4605

10. PREPARATION INSTRUCTIONS

10.1 General. Every item of GFE or GFM identified on any contractually imposed schedule which requires GFE/GFM to be installed or shipped with the end item(s) shall be included in the initial GFE/GFM Status Report.

10.1.1 Subsequent reports shall provide data on the GFE/GFM status of action item transactions which occurred during the reporting period.

10.1.2 Action item transactions are item(s) received, issued, rejected, changed in status from hold to repair, returned to stock, shipped or other.

10.1.3 When GFE/GFM is contractually identified by a Depot Maintenance Parts Requirement List (MRL) or Depot Repair Parts List, the initial report and subsequent reports shall provide data on the GFE/GFM status of action item transactions which occurred during the reporting period.

10.1.4 Except for MRL items, verification data shall be provided for no action or unreported items of GFE/GFM which are identified on any contractually approved schedule.

10.1.5 Approved changes in GFE/GFM configuration shall be reported.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A.
Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Block 7, Application/Interelationship (continued)

7.3 This DID supersedes DI-P-1631A.

Block 10, Preparations Instructions (Continued)

10.1.6 When applicable, separate reports shall be prepared covering GFE/GFM items furnished by multiple Government agencies.

10.2 Media. The GFE/GFM Status Report shall be prepared utilizing either keypunched Electronic Accounting Machine (EAM) cards or magnetic tape as the media.

10.3 Content and format. The GFE/GFM Status Report shall contain data on GFE/GFM in the following format:

10.3.1 Format instruction for keypunched EAM cards.

a. Card 1

NAME OF FIELD	CARD COLUMN	NO COLUMN	SPECIAL INSTRUCTIONS
End Item Contract Number	1-20	20 AN	Left justify, no dashes.
National Stock Number	21-33	13 AN	Left justify, no dashes.
Nomenclature	34-58	25 AN	Left justify, no dashes
Date of Record	59-63	5 N	5 digit julian date.
Source Identification	64	1 A	Enter code "M" for MRL or Depot Repair Parts List Item. Enter code "C" for item not contractually identified - other items leave blank.
Substitute NSN	65-70	6 AN	Enter contract schedule line item number of the substituted NSN. Right justify. Leave spaces blank when there is no substitution.

Block 10, Preparations Instructions (Continued)

10.3.1.1 Special instructions for EAM cards.

a. Records submitted on EAM punched cards require a record identification (RI) number. This shall be a sequentially assigned 3 digit number that shall appear in columns 77-79 of each card. The same number shall appear on each of the 1 through 9 cards submitted for each record for a reporting period, starting with the number 001 and shall be unique for the record. Assignment of the RI number shall reinitiate to 001 at the start of a new reporting period.

10.3.2 Format instructions for magnetic tape.

Tapes shall be nine track, 1600 BPI, unlabeled and unblocked. The record shall consist of 525 characters capable of being read on an IBM 360/65. The required tape columns and fields are as follows:

TAPE COLUMNS	FIELD	DESCRIPTION
1-20	1	End Item Contract Number
21-33	2	National Stock Number GFE Item
34-58	3	Nomenclature
59-81	4	Manufacturer Part Number
82-86*	5	Manufacturer/Manufacturer Code/Shipper
87-106*	6	Procurement Contract/PO/Document Number for GFE Items.
107*	7	Item: Enter "A" for new, "B" for Repaired/Overhauled
108-112*	8	Date Manufactured/Overhauled
113-118	9	Quantity Received
119-124	10	Quantity Issued to Production
125-130	11	Quantity in Stock
131-136	12	Quantity Rejected
137-153*	13	Serial Number of GFE Item
154-158*	14	Date Deficiency Discovered
159-162*	15	Operating Time at Failure
163-175*	16	Contractor Report Control Number
176-188*	17	Government Report Control Number
189*	18	Type of Government Document**
190-194*	19	Date of Government Report
195-200*	20	Originator of Government Report
201-206*	21	Screening Point for Government Forms
207-215*	22	Dollar Value
216-224*	23	Estimated Cost to Repair***
225*	24	Item Under Warranty "Y" = Yes, "N" = No, "U" = Unknown

Block 10, Preparations Instructions (Continued)

10.3.2.1 Legend Explanation.:

* Entry Required only when rejection reported
** The following number codes will be used to identify Government Document Type:

GOVERNMENT FORM NUMBERS	GOVERNMENT FORM TITLE	NUMBER CODE
Standard Form (SF) 368	Quality Deficiency Report	1
SF 364	Report of Item Discrepancy (ROID)	2
Department of Defense (DD) Form 543	Inventory Schedule B	3
DD Form 1149	Requisition & Invoice Shipping Documents	4
DD Form 6	Packaging Improvement Report	5
DD Form 1348-1	Department of Defense Single Line Item Release/Receipt Document	6
DD Form 1348	Department of Defense Single Line Item Requisition System Document	7
SF 30	Rework Authorization	8
	Contract Responsibility	9

*** Enter only when the ACO has approved costs for local repair.

\# Required for reporting surplus disposition or authorized stock transfers only.

Description of defect in sufficient detail to identify the problem and the specific component involved. Include a reference to the requirement(s) that were not met, e.g., "unable to adjust fuel control to enable the Bleed Band to operate at the correct engine Revolutions Per Minute (RPM)."

Additional spaces provided to meet requirements for additional narrative when necessary.

10.3.2 Special instruction applicable to EAM cards and magnetic tape.

a. When actions need to be reported with a separate entry for each serial number or different types of defect, report total quantity received and issued to production in the first record entered for the applicable National Stock Number. Fill these fields with zeros on the following records that identify the individual serial numbers or defects. Enter the quantity rejected and the quantity in stock in the applicable blocks for each record. The quantity rejected and the quantity in stock shall be entered for each record.

Block 10, Preparations Instructions (Continued)

b. Disposition actions (Ref Card #5 - Card Column 31 thru 34 and Magnetic Tape - Tape Column 226 thru 229) involving rejected items require the following information:

(1) End Item Contract Number

(2) National Stock Number

(3) Nomenclature

(4) Date of Record

(5) Manufacturers Part Number

(6) Quantity in stock when Action Disposition is code "C" or code "D".

(7) Action/Disposition Code

(8) Quantity Identified to Code

(9) Serial Number(s)

(10) Narrative

(11) When EAM cards are used, record identification number(s) and card type are required.

c. Disposition of excess or transfer of stock require the following information: (Card #7 - Card Column 38 thru 46/53 thru 61 and Magnetic Tape - Tape Column 337 thru 345/352 thru 360)

(1) End Item Contract Number

(2) National Stock Number

(3) Nomenclature

(4) Date of Record

(5) Manufacturers Part Number

(6) Quantity in Stock

(7) Serial Number(s)

Check the source to verify that this is the current version before use.

Block 10, Preparations Instructions (Continued)

(8) Excess quantity shipped or quantity transferred

(9) Type of Government Document

(10) Date of Government Document

(11) Narrative

(12) When EAM cards are used, record identification numbers and card type are required.

d. All failures shall be reported, although action taken or the nomenclature of the defective component (e.g. transistor, servo, etc.) may not be known at the time. This data may be recorded when all the information is available.
