**Data Item Description**

**Title:** SUPPLY CHAIN MANAGEMENT (SCM) DATA

**Number:** DI-SESS-82503
**AMSC Number:** N10604
**DTIC Applicable:** No
**Preparing Activity:** AS
**Applicable Forms:** N/A

**Approval Date:** 20251030
**Limitation:** N/A
**GIDEP Applicable:** No
**Project Number:** SESS-2025-040

**Use/Relationship:** Data delivered using this Data Item Description (DID) will be used to support Supply Chain Management activities. Those activities may require collecting Bill of Materials data as a part of the Department of Defense's (DoD) Total System Life Cycle Management responsibilities. The data may be obtained during any life cycle phase. The word "item" is used throughout the document to refer to anything in the system and includes parts, software, materials, chemicals, raw materials, etc.

This DID contains the format, content, and intended use information for the data product resulting from the work task described in the solicitation.

Bill of Materials (BOM) data can be used to establish the production status of items used in a system. The BOM will also provide Program managers with essential information that enables the identification, mitigation, and management of hardware and software production, demand, capacity, throughput and obsolescence. The data will be used in industrial base illumination, demand, capacity, and capability modeling as well as enable standard and efficient sharing of information on common items.

**Requirements:**

1. Reference Documents. N/A

2. Format. The Supply Chain Management Data shall be provided in tabular format with the Field Names in Table 1 as the column labels. The data shall be provided as an electronically editable, machine-readable, Comma Separated Values (CSV) text file with text fields enclosed in double quotation marks.

3. Content. The data shall contain the information specified by the contract as referenced by the Data Element Numbers in Table 1. The data shall meet the requirements as specified in the Definition, Notes and Instructions, and Data Type columns of Table 1. The indentured path to the system level shall be identified using the item/Next Higher Assembly (NHA) method detailed in Table 1. All fields designated by the contract shall be included. Fields for which data is not available and which are not designated as "Required" in the Notes and Instructions column of Table 1 shall be left blank. The data shall be included to the lowest indenture level (component level) for all items, including subcontractor items, which are not commercial items.

| Data Element Number | Field Name | Definitions | Notes & Instructions | Data Type |
|---|---|---|---|---|
| 1 | Prime Part Number | The part number assigned by the Prime Contractor/System Integrator. | Required. | Alphanumeric |
| 2 | Indentured Level | A number which identifies an item's relative position with the build-up of the assembly. This number represents the specific level of the item referenced in Data Element 1 within the system | Required. Starts with the top level of the system as zero (0). | Numeric |
| 3 | Next Higher Assembly (NHA) Part Number | The Part Number of the parent assembly of the item referenced in Data Element 1. | Required. | Alphanumeric |
| 4 | Part Description/ Nomenclature | The name drawing title of the item referenced in Data Element 1. | Required. | Alphanumeric |
| 5 | Total Units Required | The total of item referenced in the Data Element 1 per NHA | Required. | Alphanumeric |
| 6 | Unit Per Ship Set or Unit Per Assembly Quantity | The count of the item referenced in Data Element 1 per NHA. | Required for all items. | Numeric |
| 7 | OEM/Supplier Part Number | The part number assigned by the actual manufacturer of the item referenced in Data Element 1. | Required. This number may be the same as the item referenced in Data Element 1 if the item is manufactured by the OEM. | Alphanumeric |
| 8 | OEM/Supplier Name | The full legal name of the entity that actually manufacturers the item referenced in Data Element 1 | Required. | Alphanumeric |
| 9 | OEM/Supplier CAGE Code | The CAGE code of the entity that actually manufacturers the item | Required. | Alphanumeric (5-characters) |

| | | | | |
|---|---|---|---|---|
| | | referenced in Data Element 1. | | |
| 10 | OEM/Supplier Unique Entity Identifier (UEI) | The 12-character alphanumeric code issued by the U.S. federal government to identify entities doing business with the government for the item referenced in Data Element 1. | Required if known. | Alphanumeric |
| 11 | Country of Origin (COO) | The country of origin the item referenced in Data Element 1 was manufactured. | Required. | Text |
| 12 | Alternate Part Numbers (Per the Drawing) | The OEM part numbers of the alternate for the item referenced in Data Element 1. | Required if the item referenced in Data Element 1 is an alternate for another item in the BOM. | Alphanumeric |
| 13 | Item Class | 'Commercial Off the Shelf' (COTS) Or Non Development Item (NDI), 'Build-to-Print' (BTP), 'Design-to-Spec' (DTS) for the item referenced in Data Element 1. | Required. | Text (COTS, NDI, BTP, DTS) |
| 14 | Item Type | Enter the type of the item referenced in Data Element 1 based on the following: component, assembly, software, or raw material. | Required. | Text (Component, Assembly, Software, Raw Material) |
| 15 | Rare Earth Element (REE) | Does this item referenced in Data Element 1 contain Rare Earth Elements (REE)? | Required. | Text (Yes, No) |
| 16 | Material Lead Time (MLT) | The time between the manufacturers' receipt of an order for the item referenced in Data Element 1 and the delivery of the product. | Required if known. | Numeric (Months) |

| | | | | |
|---|---|---|---|---|
| 17 | Proposed Unit Cost (PUC) | Suppliers proposed unit cost prior to Prime to USG contract award. | Required. | Numeric (US Dollars) |
| 18 | Actual Unit Cost (AUC) | Actual unit cost after Prime to USG contract award. | Required. | Numeric (US Dollars) |
| 19 | Single or Sole Source | Identify whether there is a single or sole source for the item referenced in Data Element 1. | Required. | Alphanumeric |
| 20 | Government Furnish | Identify whether the item referenced in Data Element 1 is government furnish. | Required. | Text (Yes, No) |
| 21 | Tech Data Owner | Identify the Tech Data Owner for the item referenced in Data Element 1. | Required. | Alphanumeric |
| 22 | Annual Demand Rate | The actual or estimated total annual demand for the item referenced in Data Item 1. This shall include demand from other customers. | Required. Based on actual data if available. Projected data may be used otherwise. | Numeric |
| 23 | Production Rate | Plan total number of units produced per month to satisfy total current demand, to include all other customers, for the item referenced in Data Element 1. | Required. | Numeric |
| 24 | Maximum Production Rate | Maximum number of units that can be produced per month for the item referenced in Data Element 1. (Assumes no constraints) | Required. | Numeric |
| 25 | Supplier Performance Metrics | First Pass Yield (FPY), Scrap Rework Repair (SRR), On-time Delivery (OTD), Scrap Rate (SR) for the item referenced in Data Element 1. | Required if known. | Alphanumeric |

| | | | | |
|---|---|---|---|---|
| 26 | Attrition Rate | The rate of material lost during a manufacturing or assembly process. i.e., such as the loss of electronic components during production for the item referenced in Data Element 1. | Required if known. | Numeric |
| 27 | Shelf Life | The total period of time beginning with the date of manufacture, cure, assembly, or pack (subsistence only), that an item may remain in the combined wholesale (including manufacturer's) and retail storage systems without significant degradation, and losing its quality or functionality in its properties for the item referenced in Data Element 1. | Required if known. | Numeric (Months) |
| 28 | Service Life | Service life (estimated or technical requirement) of the item referenced in Data Element 1. | Required if known. | Numeric (Years) |
| 29 | Life Cycle Status | The current DMSMS status of the item referenced in Data Element 1. Choose from: In Production, Not Recommend New Design, Discontinued, Pending Discontinuance. | Required. Choose from: In production, Not Recommend New Design, Discontinued, or Pending Discontinuance. | Text (In production, Not Recommended New Design, Discontinued, Pending Discontinuance). |
| 30 | End of Life (EOL) Date | The End of Life (EOL) of the item referenced in Data Element 1. The EOL is the estimated last production date (month/year) of the referenced item. This | Required if known. | Date (mm/dd/yyyy) |

| | | | | |
|---|---|---|---|---|
| | | date is provided by some commercial sources for electronic items, can be found in some manufacturer's product roadmaps, or may be obtained by direct contact with the manufacturer. | | |
| 31 | Last Order Date | The date when the last order for the item referenced in Data Element 1 will be accepted. | Required if available. | Date (mm/dd/yyyy) |

End of DI-SESS-82503
