COMMERCIAL ITEM DESCRIPTION

STAND, SMOKING (METAL)

The General Services Administration has authorized the use of this commercial item description in preference to Interim Federal Specification AA-S-00675C and Purchase Description FEHS 77-90B.

This commercial item description covers two types of smoking stands: Type I for use in public areas, Type II for use in office areas. Stands shall be shipped completely assembled.

Salient characteristics:

These characteristics concisely describe the essential physical and functional/performance characteristics of the commercially available item.

Characteristics	Minimum Requirements	
	Type I	Type II
Weight	10 lbs	5 lbs
Height	24 inches	20 inches
Receptacle opening	6 inches dia	3 inches dia
Base	8 inches dia	5 inches dia

Receptacle opening shall be covered by a split, tilt, spin or similar type of blade. Sand type receptacle not permitted.

Finish. Bronze baked enamel.

Identification label. The identification label shall have the contractor's name or trademark, contract or order number, item stock number (if specified) and year of manufacture legibly marked in permanent dark ink. The label shall be affixed to the bottom of the stand and shall not be removable by hand without defacement.

Workmanship. Workmanship shall be of the quality to produce finished stands acceptable in appearance, function and serviceability and to prevent potential hazard to personnel or their clothing.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product sold in the commercial marketplace. The Government reserved the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provision of the contract.

Regulatory requirements. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The items shall be packaged in accordance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

Note. Purchasers should specify the type of smoking stand required.
