COMMERCIAL ITEM DESCRIPTION

TRAYS, PREPACKING (PLASTIC, FOAM AND CLEAR)

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification PPP-T-1835.

This description covers prepacking plastic trays used in food distribution. The prepacking trays shall meet the requirements of the Food and Drug Administration Act, Title 21, Part 110, Sections 35 and 37.

Salient characteristics.

Plastic trays are obtainable in two styles, i.e., style I, white polystyrene foam; and style II, clear transparent, biaxially oriented polystyrene.

The trays shall be of one piece construction and rectangular in shape with sides tapering outward from the base to permit nesting of trays. Trays shall be furnished in the length, width, and height as specified. Trays shall be water- and grease-resistant.

The length and width shall be measured across the center of the top outer edges of the tray. The height shall be measured by placing the tray on a hard, flat surface and measuring from the flat surface to the top edge of the tray.

A tolerance of ± 1/2 inch shall be permitted in the length and width; a tolerance of ± 3/16 inch shall be permitted in the height of the tray.

Workmanship. Trays shall be clean and free from slime spots, grease, oil, dirt, finger marks, holes, tears, surface cracks, blisters, or thin spots. Trays shall show no evidence of warpage, distortion, or any other defect which would affect the appearance or serviceability.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Copies of Federal Food, Drug and Cosmetic Act, CFR Title, 21, Part 110, Sec. 35 and 37 are available from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.
