MILITARY SPECIFICATION

CONNECTOR, OXYGEN MASK HOSE, TYPE MC-3A

This amendment forms a part of this Military Specification MIL-C-19246C, dated 30 November 1964.

PAGE 1

Add the following paragraph to the bottom of the page:

> Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Commanding Officer, Naval Air Engineering Center, ESSD, Code 93, Lakehurst, New Jersey 08733 by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

PAGE 2

2.1 STANDARDS, MILITARY

Delete: "MS33586 - Metals, Definition of Dissimilar"

Add : "MIL-STD-889 - Dissimilar Metals"

PAGE 3

3.3.2.1, line 3 - Delete "MS33586" and substitute "MIL-STD-889"

PAGE 6

4.2 (a) Add the following new subparagraph:

"(l) Retention of qualification - Retention of qualification consists of periodic verification to determine compliance of the qualified product with the requirements of the specification (see 3.1, 4.3, and 4.3.2)"

4.3.1, lines 5, 6, and 7 - Delete "Naval Air Engineering Center, Philadelphia, Pennsylvania, 19112, Attention: Director, Aerospace Crew Equipment Laboratory," and substitute "Naval Air Development Center, Warminster, Pennsylvania 18974, Code 6031."

4.3.2 Add the following new paragraph:

Check the source to verify that this is the current version before use.

"4.3.2 Retention - The retention of the qualification shall consist of periodic verification to determine compliance of the qualified connector with the requirements of this specification. The time and method of periodic verification shall be specified by the activity responsible for the Qualified Products List and shall be included in the Notice of Qualification Letter."

4.4 Delete and substitute new paragraph:

"4.4 First article inspection. First article inspection shall consist of the following examinations and tests:

Visual examination
Dimensions
Disconnection force
Leakage (room temperature)
Relief valve setting
Pressure drop through MC-3A connector
Pressure drop through MC-3A connector
with MS22058 connecter
Proof pressure
Bailout flow
Drop test

4.4.1 delete and substitute the following new paragraph:

"4.4.1 First article samples. Unless otherwise specified, as soon as practicable, after the award of the contract or order, the manufacturer shall submit three connector assemblies. The samples shall be representative of the construction, workmanship, components, and materials to be used during production. When a contractor is in continuous production of these connecter assemblies from contract to contract, submission of further first article samples on the new contract will be waived at the discretion of the procuring activity (see 6.2). Approval of the first article samples or the waiving of the first article inspection does not preclude the requirement of submitting to the quality conformance inspection. The first article inspection samples shall be furnished to the Government as directed by the contracting officer (see 6.2)."

4.4.1.1 - Delete.

4.4.1.2 - Delete.

Check the source to verify that this is the current version before use.

6.2 - Delete item “c” and substitute new item "c":

"c. Whether first article inspection is required and where the samples should be delivered (see 4.4.1)."

6.3 - Delete and substitute the following:

“6.3 Contract data requirements - When this specification is used in procurement which incorporates a DD Form 1423 and invokes the provisions of 7-104.9(n) of the Armed Services Procurement Regulations, the data requirements identified below will be developed as specified by an approved Data Item Description (DD Form 1664) and delivered in accordance with the approved Contract Data Requirements List (DD Form 1423) incorporated into the contract. When the provisions of ASPR-7-104.9(n) are not invoked, the data specified below will be delivered by the contractor in accordance with the contract requirements. Deliverable data required by this specification is cited in the following paragraphs:

Paragraph	Data Requirement	Applicable DID
4.4.1.1	First Article Inspection Reports	DI-T-5329 Inspection Test Reports”

6.4 - Delete and substitute the following:

"6.4 - With respect to products requiring qualification, awards will be made only for products which are at the time set for opening of bids, qualified for inclusion in the applicable Qualified Products List whether or not such products have actually been so listed by that date. The attention of the contractor is called to this requirement, and manufacturer’s are urged to arrange to have the products that they propose to offer to the Federal Government tested for qualification in order that they may be eligible to be awarded contracts or orders for the products covered by this specification. The activity responsible for the Qualified Products List is the Commander, Naval Air Systems Command, Department of the Navy, Washington, DC 20360; however, authorization for qualification of products shall be obtained from the Commander, Naval Air Development Center, Warminster, PA 18974, Code 6031. Prior to the submission of the samples for qualification inspection, the manufacturer shall submit a request to the Naval Air Development Center, Code 6031, indicating a date on which the samples can be forwarded and also request an authorization number to accompany the samples.”

6.5 - Add the following:

"6.5 When a first article is required, it shall be tested under the appropriate provisions of 7-104.55 of the Armed Services Procurement Regulation. The first article should be a pre-production sample. The contracting officer should include specific instructions in all procurement instruments, regarding arrangements for examinations, test and approval of the first article."
