TT-E-001384(GSA-FSS)
INTERIM AMENDMENT-1
January 17, 1984

INTERIM AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

ENAMEL, GLOSS, SYNTHETIC
(FOR METAL EQUIPMENT)

This interim amendment was developed by the General Services Administration, Federal Supply and Services, Auburn, WA 98001, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification TT-E-001384, dated August 5, 1979.

PAGE 2

2.2, Under American Society for Testing and Materials (ASTM) Standards, delete "D 3727 - Vacuum Distillation of solvent from Solvent Base Paints for Analysis" and "E 260 - General Gas Chromatography Procedures".

Add the following under 2.2 Other publications:

"Air Pollution Regulation (SCAQMD):

Rules and Regulations

(Application for copies should be addressed to the South Coast Air Quality Management District, 9150 East Flair Drive, El Monte, CA 91131.)"

PAGE 3

3.1.1 Delete and substitute:

"3.1.1 Solvent (Class 1 only). The volatile solvents shall comply with air pollution requiring "non-photochemically reactive" solvent blends such as defined in Rule 102 of the South Coast Air Quality Management District Regulations in California."

3.1.2, delete in its entirety and substitute the following:

"3.1.2 Infrared spectrophotometric analysis. When the nonvolatile vehicle is tested as specified in 4.4.7, band positions, shapes, and relative intensities in each spectrum shall match the spectrum in Figures 1 or 2 for both Classes 1 and 2.

PAGE 6

Table III. Index of Tests, delete line 27 "solvent Distillation" and Line 28, "Solvent Analysis".

PAGE 7

4.4.1, Solvent Analysis (Class 1). Delete

PAGE 8

4.4.10 Color. Delete first sentence and substitute: "Apply the enamel to a clean black and white opacity chart until complete hiding has been obtained".
