NOTICE - When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

This military standard is approved by the Department of Defense and is mandatory for all new engineering and design applications and for use in existing applications when stated by the procuring activity. Referencing for all new engineering and design applications and for maintenance of existing applications shall be made from this document.

FED SUP CLASS
5305

The screws covered by the following dash numbers listed in MS24615 are cancelled after 25 Feb 1963. Use the dash numbers given in Sheet 1. The cancelled screws cannot always replace the superseding screws and should be used until existing stocks are depleted. Use only the superseding screws for design and engineering. Replacement shall be in accordance with the table below.
