MIL-D-82035C
AMENDMENT 2
25 March 1988
SUPERSEDING
MIL-D-82035C
AMENDMENT-1
20 August 1986

MILITARY SPECIFICATION

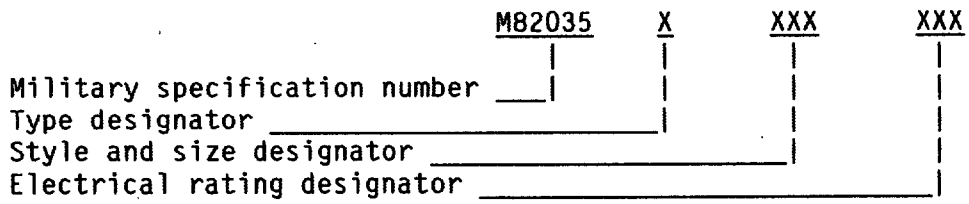

DISPENSERS, BEVERAGE, MECHANICALLY REFRIGERATED

This amendment forms a part of Military Specification MIL-D-82035C, dated 23 March 1984, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 2

Add:

"1.3 Definitive specification part number. The specification part number is definitive to identify each item covered by selecting from the options available (see 1.2). The part number is formatted and designated as follows:

Option		Designator
Type		
I		1
II		2
Style	Size	
A	4	A04
A	7	A07
A	13	A13
B	7	B07
B	11	B11
Electrical rating		
115/1/60		
220/1/50

Check the source to verify that this is the current version before use.

*2.1.1, under "Standards/Military": add the following:

MIL-STD-167/1 - Mechanical Vibration of Shipboard Equipment Type I- Environmental and Type II - Internally Excited.

MIL-STD-461 - Electromagnetic Emission and Susceptibility Requirements for the Control of Electromagnetic Interference.

MIL-STD-462 - Electromagnetic Interference Characteristics, Measurement of.

MIL-STD-1472 - Human Engineering Design Criteria for Military Systems, Equipment and Facilities."

2.1.1, delete "MIL-STD-794 - Parts and Equipment, Procedures for Packaging of." and substitute:

"MIL-STD-2073-1A - DOD Materiel Procedures for Development and Application of Packaging Requirements."

PAGE 3

3.1, delete third sentence in its entirety and substitute:

"Style A units shall be equipped with one bowl and one or more dispensing faucets, at the option of the supplier. Unless otherwise specified (see 6.2.1), style A, size 13 units shall be equipped with two or more dispensing faucets."

PAGE 5

*3.6, delete third and fourth sentences in their entirety and substitute:

"The refrigeration system shall be capable of automaticaly maintaining the beverage within the limits of 33.5°F to 40°F, inclusive when the dispenser is filled to the manufacturer's rated capacity and is operating in an ambient temperature of 90°F as specified in 4.5.2.1. The dispenser shall be capable of reducing the temperature of the rated capacity of beverage from 72°F to 40°F in not more than the applicable time specified in table I when operating in an ambient temperature of 72°F as specified in 4.5.2.2."

Line 14, delete "deleterious."

PAGE 7

Add the following paragraph:

* "3.7.8 Human factors criteria. When shipboard use is specified (see 3.13 and 6.2), human factors engineering criteria, principles, and practices, as defined in MIL-STD-1472, shall be used in the design of the

dispensers. Maintenance and operational activities shall permit safe and efficient performance by the 5th percentile female to the 95th percentile male as defined in sections 5.6 and 5.9 of MIL-STD-1472. Sufficient clearance or free area required around an item shall permit an individual with applicable body dimensions and physical capabilities to safely operate, maintain, remove, or replace that item. When establishing accessibility requirements, both physical and visual access must be provided along with access for the use of any tools, test equipment, or replacement parts needed. While inspecting for defects and performing tests (see section 4), the equipment shall adhere to the human factors engineering considerations listed herein."

PAGE 8

3.8.3, delete in its entirety and substitute:

"3.8.3 Switches. Style A dispensers shall be equipped with at least one on-off switch to control the power supply to the dispenser. Unless otherwise specified (see 6.2.1), style B units shall be equipped with an independent on-off switch for the mixing system in each bowl or compartment plus a main power supply or compressor motor switch."

* "3.13 Naval shipboard installation. For Naval shipboard installation (see 6.2), the beverage dispenser shall conform to the additional requirements as follows:

* 3.13.1 Electromagnetic compatibility. When specified for shipboard use (see 6.2), the units shall be designed and equipped for electromagnetic compatiblility in accordance with the requirements of MIL-STD-461, class 4 for surface ships and class A5 for submarines. The equipment shall meet the emission and susceptiblity requirements for CE01, CE03 and RE02 (see 4.5.2.6).

* 3.13.2 Inclined operation. Beverage dispensers shall operate satisfactorily when inclined at an angle of 15 degrees each side of the vertical in each of two vertical planes at right angels to each other, with no spillage of fluid or product when tested as specified in 4.5.2.7.

* 3.13.3 Environmental suitability. When specified for shipboard use)see 6.2), beverage dispensers shall be capable of withstanding ship's vibration and motion. Controls, switches, moving parts and electrical circuits shall operate under shipboard conditions without malfunction, binding, excessive looseness, or damage when tested as specified in 4.5.2.8."

4.1, delete in its entirety and substitute:

"4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Responsibility for compliance. All items must meet all requirements of sections 3 and 5. The inspection set forth in this specification shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the specification shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material."

PAGE 9

4.1.1, delete "4.1.1" and substitute: "4.1.2".

4.1.2, delete in its entirety and substitute:

"4.1.3 Standards compliance. The contractor shall make available to the contracting officer or his authorized representative evidence of compliance with the applicable standard(s) cited in 3.3. The Government reserves the right to examine and test all dispensers to determine the validity of the certification."

PAGE 10

4.5.2.1, Line 3: delete "50°F" and substitute: "72°F"

PAGE 11

Add the following paragraphs:

* "4.5.2.6 Electromagnetic interference test. When required for shipboard use, the unit shall be tested by the contractor in accordance with test methods CE01, CE03, and RE02 of MIL-STD-462. The contractor shall furnish written certification that the equipment meets the requirements of MIL-STD-461. Non-conformance with the requirements specified shall constitute failure of the test.

Check the source to verify that this is the current version before use.

* 4.5.2.7 Inclined operational test. Position the beverage dispenser with the base set at an angle of 15 degrees, then operate the beverage dispenser for 30 seconds at each side of the vertical in each of two vertical planes at right angels to each other. At each of these positions observe for conformance with specified requirements in 3.13.2. For the test, the beverage dispenser shall be filled to rated capacity with water.

* 4.5.2.8 Shipboard environmental test. The beverage dispenser under normal operating conditions, shall be tested in accordance with MIL-STD-167/1, Type I equipment. The beverage dispenser shall be secured to the test machine in the same manner that it will be secured on shipboard (see 3.7). Failure of the beverage dispenser to perform its function during and after testing, or meeting requirements of 3.13.3 shall constitute failure of this test."

PAGE 12

5.2.1, Line 1: delete "MIL-STD-794" and substitute "MIL-STD-2073-1A".

Line 2, delete "table I" and substitute "table VII of appendix C".

6.2.1, add the following:

"m. When faucets for style A, size 13 units shall be other than as specified (see 3.1).
n. When required switches for style B units shall be other than as specified (see 3.8.3).
* o. When dispensers are for shipboard use (see 3.7.8 and 3.13).
* p. When electromagnetic compatibility is specified for shipboard use (see 3.13.1).
* q. When environmental suitability is specified for shipboard use (see 3.13.3)."

6.2.2, line 12: after "3.3.1, 3.3.2" add "4.5.2.6,"

Line 13: delete "Publications, Commercial UDI-H-24010" and replace with "Manual, Commercial DI-TMSS-80385."

Add the following paragraph:

"6.4 The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment."

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document*(s)* or to amend contractual requirements.
