Block 10, Preparation Instructions (Continued)

10.4 Content. SIE drawings and associated lists shall provide the design disclosure information necessary to permit the manufacture of inspection equipment that duplicates the functions of the original SIE. SIE drawings and associated lists shall include:

a. Details of processes which are essential to achieving the engineering requirements of the item when these processes are not published or generally available to industry.

b. Performance ratings and tolerances.

c. Dimensions and tolerances

d. Critical manufacturing processes and assembly sequences.

e. Toleranced input and output characteristics

f. Diagrams

g. Mechanical and electrical connections.

h. Physical characteristics, including form and finish requirements

i. Details of material identification, including heat treatment and protective coatings.

j. Inspection, test and evaluation criteria.

k. Calibration information.

l. Environmental requirements.

m. Reliability requirements.

n. Maintainability requirements.

10.5 Selection of drawings. The types of drawings and associated lists to be prepared shall be selected from ASME Y14.24M. and ASME Y14.34M. The Selection Work Sheet incorporated in the contract or purchase order will specify whether the contractor or the Government is responsible for selecting the types of drawings and associated lists to be prepared.

10.6 Multi-detail and detail assembly drawings. Multi-detail and detail assembly drawings may be used at the discretion of the contractor. The mono-detail drawing system shall not be mandatory for SIE drawing packages.

10.7 CAGE code and document numbers. SIE drawings and associated lists will be identified with the contractor's CAGE and contractor document numbers or with a Government CAGE code and Government document numbers as specified in the Selection Work Sheet incorporated in the contract.
