QUALIFIED PRODUCTS LIST
OF
PRODUCTS QUALIFIED UNDER MILITARY SPECIFICATION
MIL-C-23353

FSC 5935

CONNECTORS, PLUG AND RECEPTACLE, ELECTRICAL, POLARIZED SHELL ESTABLISHED RELIABILITY, AND SHIELDS, ELECTRICAL CONNECTOR, (FOR PRINTED WIRING BOARDS AND RELATED APPLICATIONS), GENERAL SPECIFICATION FOR

GOVERNMENT DESIGNATION	MANUFACTURER'S DESIGNATION	TEST OR QUALIFICATION REFERENCE	MANUFACTURER'S NAME & ADDRESS

As of 6 July 1967, no connectors have been tested and qualified under MIL-C-23353. Pending the establishment of a Qualified Products List or the approval of a product for inclusion on the Qualified Products List, or for those products which have not been approved for listing after a Qualified Products List has been established, the qualification requirements (paragraphs 3.2 and 6.4) of MIL-C-23353 shall be waived for Military Procurements. However, connectors furnished under MIL-C-23353 shall be capable of meeting the qualification tests, and procuring agencies should require contractors to furnish preproduction samples, along with test data, of connectors that they propose to supply for Government inspection and contractual approval.

This Notice does not relieve the manufacturer of the obligation of meeting the requirements of MIL-STD-790 prior to supplying any items under this specification. Inspection and acceptance of a program to the requirements of MIL-STD-790 shall be accomplished through the Defense Electronics Supply Center (DESC-EQ).

When a Qualified Products List is established for Military Specification MIL-C-23353, this Notice should be destroyed.

The activity responsible for the establishment of QPL-23353 is the Naval Ship Engineering Center, Department of the Navy, Washington, D. C. 20360; however, information pertaining to qualification of products may be obtained from the Defense Electronics Supply Center (DESC-EQ), Dayton, Ohio 45401.
