W-G-656D
AMENDMENT-3
May 19, 1977
SUPERSEDING
Amendment-2
November 11, 1974

FEDERAL SPECIFICATION

GRINDING MACHINE AND GRINDING AND BUFFING
MACHINE, UTILITY, BENCH AND PEDESTAL, ELECTRIC

This amendment which forms a part of Federal Specification W-G-656D, dated October 15, 1973, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 3

2.1, Under "Military Standards" delete MIL-STD-130 and its title.

PAGE 11

Table I, Sizes and Capacities, Type IV and Type V, Spindle shaft diameter, inches: Size 8, delete 1 and insert 5/8; Size 10, delete 1-1/4 and insert 3/4.

PAGE 12

3.11.4 Starting mechanism. Delete first ten lines and insert "Each machine shall have a switch of the proper capacity to control the motor used. The switch case shall be on suitable insulating material, or of metal suitably insulated from current carrying parts and effectively grounded. Each motor of over one horsepower, and each motor rated at more than 230 volts, shall be controlled by a pushbutton and magnetic starter having overload and low voltage protection; each motor of one horsepower or less, and rated at 230 volts or less shall have a built-in switch and overload protection. The switch shall be located".

PAGE 14

3.17, line 3, add comma after "information" and delete "in accordance with MIL-STD-130".
