COMMERCIAL ITEM DESCRIPTION

ANODES, CADMIUM

The General Services Administration has authorized the use of this commercial item description for all federal agencies.

1. SCOPE. This commercial item description (CID) establishes the government acquisition requirements for cadmium anodes to be used in electroplating processes.

2. CLASSIFICATION. The anodes shall be of the following styles. The style to be furnished shall be specified in the acquisition order (7.2).

Style 1	Ball anodes
Style 2	Oval anodes
Style 3	Rectangular anodes
Style 4	Round anodes

3. SALIENT CHARACTERISTICS

3.1 Dimensions. The dimensions of the anodes shall be any user-acceptable dimensions available from the manufacturer's standard anodes products for any specified style and shall be specified in the acquisition order (see 7.2). The anodes shall be cast, rolled to size, or cut to size from electro-refined metal, castings, or rolled plate.

3.2 Materials. The anodes shall be made of solid cadmium metal containing a minimum of 99.90 percent by weight cadmium determined in conformance with American Society for Testing and Materials (ASTM) Standard E1282, "Standard Guide for Specifying the Chemical Compositions and Selecting Sampling Practices and Quantitative Analysis Methods for Metals, Ores, and Related Materials". Metallic impurities in the cadmium shall conform to the compositional and

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any other data which may improve this document should be sent to: Defense Supply Center Richmond (DSCR), ATTN: DSCR-VBD, 8000 Jefferson Davis Highway, Richmond, VA 23297-5610.

AMSC N/A FSC 3426

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

testing requirements specified in ASTM Standard E396, "Standard Test Methods for Chemical Analysis of Cadmium".

3.3 Workmanship. The anodes shall be clean, unbroken, and substantially free from cracks, warps, inclusions, porosity, ragged edges, surface films (such as “rolling skin”), and any other defects which may adversely affect uniform corrosion in service.

4. REGULATORY REQUIREMENTS

4.1 Material safety data sheet (MSDS). Manufacturers shall prepare and submit a MSDS meeting the requirements of FED-STD-313, "Material Safety Data, Transportation Data and Disposal Data for Hazardous Materials Furnished to Government Activities" and the Code of Federal Regulations (CFR), section 29 CFR 1910.1200.

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The cadmium anodes provided shall meet the salient characteristics requirements of this commercial item description; conform to the producer’s own drawings, specifications, standards, and quality assurance practices; and be the same product as that which the producer offers for sale on the commercial market. The government reserves the right to require proof of such conformance.

5.2 Market Acceptability. The product offered must have been previously sold either to the government or on the commercial market.

6. PACKAGING

6.1 Preservation, packing, and marking. For acquisition purposes, the cadmium anodes shall be preserved, packed, and marked as specified in the acquisition order (see 7.2).

7. NOTES

7.1 Part identification number (PIN). The following part identification numbering system is for government purposes and does not constitute a requirement for the contractor

7.2 Ordering data. Acquisition documents must specify the following information:

a. Title, number, and date of this document
b. Style (see 2.), and quantity required
c. When applicable, anode dimensions (see 3.1)
d. Packaging requirements (see 6.1)

7.3 Source of documents.

7.3.1 CFR documents. Copies of 29 CFR documents may be obtained from the Superintendent of Documents, ATTN: New Order, PO Box 371954, Pittsburgh, PA 15250-7954 or from the Government Printing Office Access website (http://www.access.gpo.gov).

7.3.2 ASTM standards. Copies of ASTM Standards may be obtained from the American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken, PA 19428.

7.3.3 Federal standards. For bidding purposes, copies of FED-STD-313 may be obtained from the General Services Administration, Federal Supply Service Bureau, Specification Section, Suite 8100, 479 L'Enfant Plaza SW, Washington, DC 20407.

7.4 National stock number (NSN). This CID is associated with NSN 3426-00-262-3845. Other NSNs may correspond with this CID.
