MILITARY SPECIFICATION

CAP; PRESSURE FUEL SERVICING

This amendment forms a part of Military Specification MIL-C-8605A, dated 31 October 1980, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 11

Paragraph 5.2.1, lines 5 and 6: Delete existing lines and substitute "This date shall be 16 quarters (4 years) after curing date of oldest synthetic rubber part used in the cap."

PAGE 12

Add the following paragraph:

6.4 International standardization agreements. Certain provisions of this specification are the subject of international standardization agreement NATO STANAG 3294. When amendment, revision, or cancellation of this specification is proposed which will modify the international agreement concerned, the preparing activity will take appropriate action through international standardization channels including departmental standardization offices to change the agreement or make other appropriate accommodations.
