MILITARY STANDARD

DIMENSIONING AND TOLERANCING

1. Military Standard MIL-STD-8C, dated 16 October 1963, is hereby inactivated, effective on the date of this NOTICE, for use in the procurement of engineering drawings and associated documents procured under MIL-D-1000, Drawings, Engineering and Associated Lists.

2. Procurements of engineering drawings and associated documents, made on or after the date of this NOTICE, in which MIL-STD-8C heretofore would have application, shall invoke USA Standard, Drafting Practices, USASI Y14.5-1966, Dimensioning and Tolerancing of Engineering Drawings.

3. Procurements in effect on the date of this NOTICE requiring the acquisition of engineering drawings and associated documents conforming to MIL-STD-8C need not be amended to utilize USASI Y14.5-1966. However, engineering drawings and associated documents conforming to USASI Y14.5-1966 which may be submitted to the Government pursuant to a procurement in effect on the date of this NOTICE should be accepted, if such data is satisfactory respecting all other requirements.

4. Consistent with Defense Standardization Manual 4120.3-M governing the procurement and reproduction of Industry Standardization documents issued by Industry Association Groups, copies of USASI Y14.5-1966 will be stocked by the DOD Single Stock Point, U. S. Naval Supply Depot, 5801 Tabor Avenue, Philadelphia, Pennsylvania 19137 for use of the Military Departments and other Federal Agencies only.

5. Copies of USASI Y14.5-1966 required by contractors pursuant to military contracts are available from the United States of America Standards Institute, 10 East 40th Street, New York, N. Y. 10016 or from the ASME Order Department, United Engineering Center, 345 E. 47th Street, New York, N. Y. 10017.

6. Supplies of MIL-STD-8C will continue to be stocked by the DOD Single Stock Point for use as required in existent military programs and contracts.
