● INACTIVE FOR NEW DESIGN - Dash numbers 545 thru 564 and those with an (*) are inactive for new design.

NOTES:
1. MATERIAL: Naval Brass in accordance with QQ-B-637, alloy no. 464, half-hard or alloy no. 462, hard having a minimum ultimate tensile strength of 60,000 PSI for sizes thru 1.000, and 58,000 PSI for sizes over 1.000.
2. PROTECTIVE COATING: None.
3. THREADS: The threads shall be in accordance with Screw Thread Standards for Federal Services, Handbook H28.
4. DIMENSIONS: All dimensions are in inches, unless otherwise specified.
5. THREAD LENGTH: Minimum thread length shall be twice the diameter plus 0.250 inch. The tolerance shall be plus 0.188 inch or 2-1/2 threads, whichever is greater. On screws that are too short for minimum thread lengths, the distance from the head bearing surface to the first complete thread shall not exceed the length of 2-1/2 threads for sizes thru 1.000 and 3-1/2 threads for sizes over 1.000.
6. PART NUMBER: The MS part number consists of the MS number, plus the dash number. Example: MS35309-301
7. Referenced documents shall be of the issue in effect on date of invitations for bid.
8. For design feature purposes, this standard takes precedence over procurement documents referenced herein.

INTERCHANGEABILITY

The former dash numbers of MS35309 (1 thru 283) are cancelled and superseded by the present dash numbers of MS35309 (301 thru 583 respectively). Use only the present dash numbers for new design.
