COMMERCIAL ITEM DESCRIPTION

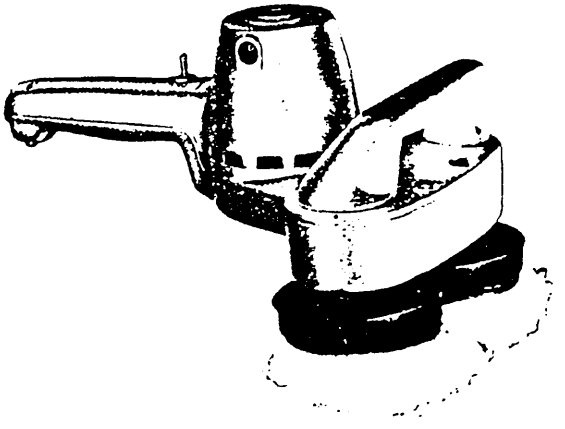

SANDER-POLISHER, TRANSLATORY ACTION, ELECTRIC, PORTABLE

The General Services Administration has authorized the use of this commercial item description.

Salient characteristics:

Shall conform to the requirements of Underwriters' Laboratories Standard No. 45
Twin 4 inch cushioned heads
Heavy duty 1/3 horsepower, 120 VAC electric motor
Bridge handle across the top of the machine over the working heads
Straight handle, with an on-off toggle switch, for controlling the machine
Housing constructed from heavy-duty cast aluminum
Gears made of suitable material to withstand shock and vibration and adequately supported to prevent deflection
Length 13 inches maximum
Width 8-1/2 inches maximum
Height 7 inches maximum
Weight 8 pounds maximum
Accessories: Eight polishing bonnets
Four sanding jackets
Polishing pads and sanding jackets constructed so as to fit snugly over the working heads and remain securely in place during heavy duty operation of the machine
One can adhesive
Sturdy metal carrying case of sufficient size to contain the sander-polisher, maintenance tools and accessories.

Workmanship. The sander-polisher, including all parts and accessories, shall be free from fins, burrs, rust, external sharp or rough edges, imperfections and any other defects which may impair serviceability, durability, or appearance.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.
