COMMERCIAL ITEM DESCRIPTION

CANS, MILK, STEEL, STAINLESS

The General Services Administration has authorized the use of this commercial item description by all Federal agencies.

This commercial item description covers 18.925 liter (5 gallon) and 37.85 liter (10 gallon) stainless steel cans, used for the transportation and storage of milk.

1) Salient characteristics:

1.1) The cans furnished under this commercial item description shall comply with all provisions of the Federal Food, Drug and Cosmetic Act. Supplier must submit certification to that effect.

1.2) The cans shall be made of stainless steel, 0.9 millimeter (0.036 inch) thick, minimum, for 18.925-liter (5-gallon) cans; and 1.22 millimeter (0.048 inch) thick, minimum, for 37.85-liter (10-gallon) cans.

1.3) The handles shall have a grip not less than 7.62 centimeters (3 inches) wide inside. The handles shall be welded to the breast of the can opposite each other and shall not interfere when rolling in a horizontal position on a flat surface.

{Beneficial comments, recommendations, additions, deletions clarifications, etc. and any other data which may improve this document should be sent to: General Services Administration, Engineeiring Branch (2FYEE), New York, NY 10278.}

Check the source to verify that this is the current version before use.

1.4) The can shall be equipped with a friction type umbrella cover. Two holes, 1.11 centimeters (7/16 inch) in diameter, shall be punched on opposite sides of the rim of the cover. The cover cap shall fit snugly into the neck of the can to prevent spilling of liquid contents.

1.5) The cans shall be die-stamped and must have stamped identification marking including the manufacturer's name (code), (5 or 10 gallon) capacity of the can, and date of fabrication.

1.6) Workmanship - The can shall be free from any defect that may affect its appearance, performance or use.

2) Quality Assurance:

Product Conformance: The product provided shall meet the salient characteristics of this commercial item description. The quality of the product sold to the government shall be equal to or better than the quality of the product sold by the manufacturer in the commercial market. The government reserves the right to require proof of such conformance.

3) Application for copies of technical documents referenced herein: The issue date in effect on date of invitation for bids or request for proposal shall apply.

Public Law 94-580, Resource Conservation and Recovery Act, is part of U.S. Code, Title 42. Available from the Congressional Sales Office, U.S. Government Printing Office, Washington, D.C. 20402.

4) Preparation for Delivery: Preservation, packaging, packing, labeling, and marking shall be as specified in contract or purchase order.
