INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

TAPE, PRESSURE-SENSITIVE ADHESIVE
(CELLOPHANE AND CELLULOSE ACETATE)

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification L-T-90D, dated November 1, 1974.

PAGE 3

Paragraph 3.7.1, line 1: Delete "types I and II tapes" and substitute "type II tape".

Paragraph 4.4.2, line 8: Delete "Accelerated Aging (Heat and Humidity Method) -60.2" and substitute the following:

"Accelerated Aging (Heat and Humidity Method)

Type I (Test for 30 hours)	-61.1
Type II	-60.2"
