FEDERAL OUALIFIED PRODUCTS LIST

OF

PRODUCTS OUALMED UKDER FEDERAL SPECIFICATION

ZZ-T-1083E (GSA-FSS)

TIRES, PNEUMATIC, LOW SPEED, OFF HIGHWAY

This Qualified Products List has been prepared by the General Services Administration for Pneumatic tires, both tubeless, tube type, for mounting on construction, earthmoving, mining, and logging equipment, road graders mobile cranes, and similar vehicles operated at low speeds and off the highway which have been approved for procurement by the Federal Government. The list is based upon the results of laboratory test prescribed in Federal Specification ZZ-T-1083D. This list is subject to change without notice; revision or amendment will be issued as necessary. The inclusion of tires in this list does not release the supplier from compliance with the specification requirements for tires supplied to the Government. Use of this Qualified Products List for advertising in such a manner as to state or imply that tires listed hereon are endorsed or preferred by the Federal Government or are considered by the Government to be superior to other tires is prohibited.

The activity responsible for this Qualified Products List in the General Services Administration, Transportation and Public Utilities Service, Washington, DC 20406.

NOTE: 1. SINCE ALL TIRES MANUFACTURED WERE NOT OFFERED FOR TESTING, THE OMISSION OF ANY TIRE FROM THIS QPL DOES NOT NECESSARILY MEAN THAT THE UNLISTED TIRE IS EITHER UNSAFE OR INFERIOR IN QUALITY.

2. ALL SIZES AND PLY RATINGS FOR TIRE BRANDS SHOWN TN THIS QPL ARE ACCEPTABLE.
