HH-R-595
CANCELLATION
April 10, 1985

FEDERAL SPECIFICATION

ROOFING FELT, COAL TAR AND ASPHALT SATURATED ORGANIC FELTS, ROLLS

This cancellation is approved by the Assistant Administrator, Office of Federal Supply and Services, General Services Administration.

Federal Specification HH-R-595B, dated September 2, 1970, is hereby cancelled.

Types 15A and 30A are replaced by the American Society for Testing and Materials (ASTM) Standard D 226, Asphalt-Saturated Organic Felt Used in Roofing and Waterproofing.

Type 15C is replaced by the American Society for Testing and Materials (ASTM) Standard D 227, Coat-Tar-Saturated Organic Felt Used in Roofing and Waterproofing.

The ASTM Standards adequately cover the requirements for these materials.
