COMMERCIAL ITEM DESCRIPTION

FUNNEL (PLASTIC)

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification L-F-1593.

Salient characterisitics:

(a) Type I. Polypropylene, for use in kitchens, hospitals, and areas subject to high temperatures. Capacity 1 pint ± 10 percent or 4 quart ± 3 percent, size as specified.

(b) Type II. Polyethylene or polypropylene, for general purpose use and areas not subject to high temperatures. Capacity 4 ounces ± 10 percent, 1 pint ± 10 percent, 1 quart ± 3 percent, or 2 quarts ± 3 percent, size as specified.

The plastic resin used in both type I and type II funnels shall be in conformance with applicable requirements stipulated by the Food and Drug Administration, Code of Federal Regulations (CFR), Title 21.

(c) Construction for both type I and type II funnels:

(1) Plain, tapered (conical) body with straight sided spout.
(2) One-piece and seamless.
(3) Top-edge, flat or rounded and stiffened, with or without a tab for handling, at the option of the manufacturer.
(4) Watertight, shall not leak when the bottom end of the spout is blocked and filled to capacity with water.

Workmanship. Funnels shall be free from flash, blisters, cracks, chips, sharp fins, sharp edges, lumps, imbedded foreign material, and any other defects which might affect serviceability.

The issue of the CFR in effect on the date of the solicitation shall be used to determine compliance with stated requirements.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The items shall be packaged in accoardance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

Copies of CFR Title 21 are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.
