COMMERCIAL ITEM DESCRIPTION

TRAY, PAINT ROLLER

This specification is approved by the Assistant Administrator, Office of Federal Supply Service, General Services Administration for the use of all Federal Agencies.

This commercial item description covers two types and two sizes of heavy duty paint roller trays.

1. SALIENT CHARACTERISTICS:

Types.

Type I - Metal
Type II - Plastic

Sizes.

11 - Suitable for 229 mm (9 inch) paint rollers.
20 - Suitable for 458 mm (18 inch) paint rollers.

1.1 The type I (metal) paint roller tray shall be made from corrosion resistant metal or metal made corrosion resistant by electroplating. The finished tray shall be free of burrs and sharp edges.

1.2 The type II (plastic) paint roller tray shall be made from polypropylene or equitable plastic. The finished tray shall have all sprues and runners removed.

1.3 Type I and Type II trays shall not discolor, wrinkle, blister or otherwise deteriorate, or be adversely affected when submerged for one hour in thinner conforming to Commercial Item Description A-A-857.

DISTRIBUTION STATEMENT: Approved for public release. Distribution is unlimited.

1.4 Type I and Type II, size 11, trays shall have a leg design suitable for use on ladders or planks. When filled to working capacity and hooked over a ladder or plank, the tray shall not distort or buckle.

1.5 Size 11 trays shall have a minimum width of 28 mm (11 inches) and shall have a capacity of not less than 3.8 L (one gallon) and a working capacity of not less than 0.9 L (one quart).

1.6 Size 20 trays shall have a minimum width of 51 mm (20 inches) and shall have a capacity of not less than 7.6 L (two gallons) and a working capacity of not less than 2.7 L (3 quarts).

1.8 Type I and Type II trays shall be tapered in depth, and shall be of ribbed, studded, or dimpled (inside) bottom design suitable for loading and removing excess paint from the paint roller.

1.9 The inside of Type I and Type II trays shall have a smooth finish to facilitate easy cleaning.

2. Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

3. Preservation, packaging, packing, labeling, and marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

4. Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.
