COMMERCIAL ITEM DESCRIPTION

PAPER, PLAY CONSTRUCTION

The General Services Administration has authorized the use of this commercial item description.

This description covers white and colored construction paper for use in art work and displays.

Salient characteristics:

The construction paper shall be 9" (229 mm) wide, ± 1/16" (1.59 mm), and 12" (305 mm) long, ± 1/16" (1.59 mm). The construction paper shall be not more than 80% groundwood and shall meet the requirements listed below.

Characteristic	Requirement	TAPPI test method
Basis weight	72 lbs, min. (24 x 36-500)	T-410
Bursting strength	12 lb/in^2 (82 k Pa), min. av.	T-403

The issue of the TAPPI method in effect on the date of the solicitation shall be used to determine compliance with these requirements. The construction paper shall be clean and free from tears, holes and dirt and shall be uniform in color and formation. The paper shall be squarely, cleanly and uniformly cut. The construction paper shall have an eggshell finish.

Color. Color shall be as specified and shall conform to Federal Standard 595A or a good commercial match.

Regulatory requirements The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable in accordance with Public Law 94-580.

Preservation, packaging, packing, labeling and marking. Preservation, packaging, packing, labeling and marking shall be as specified in the contract or order.

Note: TAPPI test methods are available from the Technical Association of the Pulp and Paper Industry, Technical Park/Atlanta, P.O. Box 105113, Atlanta, GA 30348.

Federal Standard 595A is for sale by the General Services Administration, Specification Distribution, WYSIS Room 6039, 7th and D Streets, SW, Washington, DC 20407 (202) 472-2205.
