COMMERCIAL ITEM DESCRIPTION

PAIL, 5-GALLON, WITH REMOVABLE BAIL AND SNAP-ON LID

The General Services Administration has authorized the use of this commercial item description (CID) for all federal agencies.

1. SCOPE

1.1 Scope. This commercial item description covers 5-gallon pails for refuse.

2. SALIENT CHARACTERISTICS

2.1 Color. The color of the pail shall be white or gray.

2.2 Capacity. The capacity shall be 5 gallons ± 2 quarts (18.9 ± 1.9 liters).

2.3 Shape. The pail shall be round in shape and shall be tapered for nesting. The bottom diameter shall be 10.5 ± 1 inch (266.7 ± 25.4 mm), the top diameter shall be 11.5 ± 1 inch (292.1 ± 25.4 mm), and the height (without lid in place) shall be 15 ± 1 inch (381 ± 25.4 mm).

2.4 Material. The pail shall be constructed of high density polyethylene (HDPE).

2.5 Bail. The bail shall be constructed of corrosion resistant metal and shall be removable and diametrically attached. The bail shall have at the top center a plastic sleeve with a minimum length of 3-1/4 inches (82.6 mm).

2.6 Bail ears. The bail ears shall be diametrically positioned and molded into the rim.

2.7 Lid. The lid shall be snug fitting and shall be of the snap-on type.

2.8 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parentheses are for informational purposes only.

2.9 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Branch (7FXEE), 819 Taylor St., Fort Worth, TX 76102.

Check the source to verify that this is the current version before use.

2.10 Workmanship. The pail shall be free from flash, blisters, cracks, chips, sharp fins, sharp edges, lumps and imbedded foreign material. The pail shall be free from leaks, cracks, splits, or permanent deformation when filled with water and lifted by the bail. When the pail is filled with water and lifted by the bail, the bail shall swing freely, and the bail shall not break, become detached, or undergo permanent deformation.

3. REGULATORY REQUIREMENTS

3.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS

4.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

5. PACKAGING

5.1 Packaging. Preservation, packing, and marking shall be as specified in the contract or order.

6. NOTES

6.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number, and date of this commercial item description.
b. Preservation, packing, and marking desired.

6.2 Reference NSN. 7240-01-094-4305

MILITARY INTERESTS:

NONE: DoD has no registered interest in this commercial item description until further notice.
