COMMERCIAL ITEM DESCRIPTION

MAILING AND FILING TUBES

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers spiral wound or convolutely wound, commercially available tubes used in mailing, filing, and map storage.

1. CLASSIFICATION:

Class 1: Spiral wound tubes.
Class 2: Convolutely wound tubes.

2. SALIENT CHARACTERISTICS:

2.1 Tubes shall either be class 1, spiral wound, or class 2, convolutely wound. Plies of class 1 tubes shall be wound with butt joints, with a maximum gap of 1.59 millimeters (1/16 inch).

2.2 Seams of class 2 tubes shall be tapered or bevelled to form a smooth seam.

2.3 Crushing strength of both class 1 and class 2 tubes shall not be less than 1.43 kilograms per centimeter (8 pounds per inch) of the tube length, as indicated by T-108 Test of the Composite Can and Tube Institute.

{Beneficial comments, recommendations, additions, deletions clarifications, etc. and any other data which may improve this document should be sent to: General Services Administration, Engineeiring Branch (2FYEE), New York, NY 10278.}

Check the source to verify that this is the current version before use.

2.4 Inside diameter and inside length shall be as specified. (See Section 7). The tolerance on the inside diameter shall be +/- 0.79 millimeters (1/32 inch) and on the inside length shall be plus 0.95 centimeters (3/8 inch), minus zero.

2.5 Closure shall be by the use of metal ends, either by crimping or metal screw cap.

2.6 Workmanship - The tube shall be free from any defect that may affect its appearance, performance or use.

3. RECOVERED MATERIALS:

The contractor shall certify that the product offered shall include a minimum of 80 % post consumer recovered material as defined in 40 CFR, part 250. The Government reserves the right to require proof of such conformance.

4. QUALITY ASSURANCE:

Product Conformance: The product provided shall meet the salient characteristics of this commercial item description. The quality of the product sold to the government shall be equal to or better than the quality of the product sold by the manufacturer in the commercial market. The government reserves the right to require proof of such conformance.

5. APPLICATION FOR COPIES OF TECHNICAL DOCUMENTS REFERENCED HEREIN: The issue date in effect on date of invitation for bids or request for proposal shall apply.

5.1 T-108 Test is available from the Composite Can and Tube Institute, 1630 Duke Street, Alexandria, Va 22314; phone 703-549-2233.
