DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

2. TITLE	1. IDENTIFICATION NUMBER
SKY-WAVE PROPAGATION CHARTS	DI-MISC-81119

3. DESCRIPTION / PURPOSE

The Sky-Wave Propagation Charts contain the predicted monthly and seasonal upper and lower limiting frequencies for satisfactory radio communications. The charts contain predictions by hour, month, and year.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
901219	ASQB-SEP-A		

7. APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This DID is applicable to contracts requiring preparation of Sky-Wave Propagation Charts for Selected World Wide Stations or Intermediate and Short Distance Sky-Wave Propagation Charts. (The

		A6006

10. PREPARATION INSTRUCTIONS

10.1 Format. The Sky-Wave Propagation Chart format shall be contractor selected. Unless effective presentation would be degraded, the initially used format arrangement shall be used for all subsequent submissions.

10.2 Content. The Sky-Wave Propagation Charts for Selected World Wide Stations shall contain the following information:

a. Agency authentication.

b. Table of contents.

c. Introduction.

d. Description and use of charts.

e. Solar activity interpolation nomograms.

f. Map of aeronautical ground stations.

g. Propagation charts.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Block 7, Application/Interrelationship (Continued)

latter are prepared in multiple volumes, each for a distinct area of the world).

7.3 The contractor data requirements list (CDRL) will establish whether Sky-Wave Propagation Charts for Selected World Wide Station, short title: A/G Book, or Intermediate and Short Distance (ISD) Sky-Wave Propagation Charts, short title: ISD Book, is to be prepared. If the latter, the CDRL will state also which world area(s) to be covered. The A/G Book is for communications between ground stations and aircraft aloft within 4500 nautical miles of these stations. The ISD Book is for distances up to 2400 km. Copies of current issues are available from the procuring activity.

7.4 This DID supersedes DI-E-1142.

Block 10, Preparation Instructions (Continued)

10.3 Content of Propagation Charts. The ISD Sky-Wave Propagation Charts shall contain the following information:

a. Agency authentication.

b. Table of contents.

c. Introduction.

d. Definitions.

e. Description of the charts.

f. Use of the charts.

g. Special notice.

h. Additional material.

i. Solar activity interpolation nomogram.

j. Time conversion nomogram.

k. Typical antenna types.

l. Index to lowest useful high frequency.

m. Map of areas.

Block 10, Preparation Instructions (Continued)

n. Sample charts.

o. Propagation charts.

10.4 Binding. The A/G Book shall be drilled for three ring binders. The ISD Book shall be bound with two staples on left side.
