DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
COLOR COORDINATION MANUAL(S) FOR HABITABILITY SPACES	DI-MISC-81123

3. DESCRIPTION/PURPOSE

3.1 This manual will reveal the results of a special study/analysis to determine the most acceptable color schemes of paints and other covering materials for use in decorating/painting/preserving habitability spaces. This manual will be used to specify color schemes in habitability spaces.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
910220	SH/55W51		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by a specific and discrete task requirement as delineated in the contract.

7.2 This DID supersedes UDI-M-26404.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		N6023

10. PREPARATION INSTRUCTIONS

10.1 Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

10.2 Format. The color coordination manual shall consist of two parts:

10.2.1 Samples. Swatchboards of actual samples of material and color schemes proposed for each space.

10.2.2 Volume(s). One or more volumes composed of loose-leaf pages in a three-ring binder. The loose-leaf pages shall be high-quality, accurate color photographic reproductions of the swatchboards and shall be assembled in an orderly manner to form the Color Coordination Manual.

Block 7. Application/Interelationship (continued)

7.3 The U.S. Navy Shipboard Color Coordination Guidance Manual may be obtained from Naval Sea Systems Command, Attn: Code 55W51, Washington, DC 20362.

Block 10. Preparation Instructions (Continued)

10.3 Content. Each of the two parts shall contain:

10.3.1 Title Pages.

10.3.2 Table of Contents.

10.3.3 Introduction. A description of methods used in the study/analysis.

10.3.4 General Notes. (as necessary for clarification/ understanding).

10.3.5 Material Section. It shall contain a material section consisting of specifications/descriptions and samples of material and color schemes, arranged by material category (e.g., deck covering, tile; deck covering, carpet; bulkhead covering, paint; etc.) for color schemes developed.

10.3.6 Swatchboard. A swatchboard of actual samples of materials which have been specified in the Ship Specification for use in the particular space. A sample shall be included for each and every covering material. The actual material samples shall be permanently bonded to the swatchboard. The size of the exposure that each material shall have in proportion to the amount and exposure that each material shall have in the compartment. Next to each material sample there shall be a letter code ("a", "b", "c", etc.), as identified in the U.S. Navy Shipboard Color Coordination Guidance Manual, NAVSEA 0929-002-7010, for use in cross-referencing with the Material Schedule and Arrangement Drawing.

10.3.7. Material Schedules. A material schedule listing the commercial identification and description for each material sample on the swatchboard. Next to each material description the corresponding letter code shall be indicated.

10.3.8 Arrangement Drawing. An arrangement Drawing of the compartment annotated with the aforementioned letter code to indicate where each material sample would be used. The Arrangement Drawing for the compartment shall be shown next to the swatchboard and the material schedule.
