COMMERCIAL ITEM DESCRIPTION

SYRUP, CORN (HIGH-FRUCTOSE)

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

This Commercial Item Description (CID) covers high-fructose corn syrup in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The syrup shall be composed of corn syrup, high-fructose corn syrup, water, and flavorings, with the following minimum percentages of corn syrups:

	Minimum Percentage (by weight)
Corn syrup (42 DE/43° Be)	79
Corn syrup (55% high-fructose)	14

The product shall contain no added coloring, and shall be flavored with vanillin, U.S.P. grade, or ethyl vanillin, or any combination of the two. A defoaming agent that is approved by the U.S. Food and Drug Administration Regulation 21 CFR 173.340 may be used at the level permitted. The product shall be heat processed (pasteurized) according to good commercial practice. Either hot fill or pasteurization in the container is acceptable. The product shall be clean, wholesome, and free from any foreign odors, flavors, or extraneous matter (including caramelized particles).

Analytical requirements.

The syrup shall conform to the following analytical and color requirements:

Solids - not less than 75 percent Brix solids or 40.0 degrees Baume (Modulus 145), based on the Bureau of Standards' Baume scale for sugar solutions.

Ash - not more than 0.5 percent.

Color - not darker than "water white", as defined by the Color Standards for Honey of the U.S. Department of Agriculture.

FSC 8925

Analytical methods required to determine compliance with the above requirements shall be made in accordance with the Official Methods of Analysis of the Association of Official Analytical Chemists, or other methods, as follow:

TEST	SOURCE	METHOD
Solids (°Brix)	Chapter: Sugars and Sugar Products Section: Sugars and Syrups	By Means of Refractometer Official Final Action
Soilds (°Baume)	Chapter: Sugars and Sugar Products Section: Sugars and Syrups	By Means of Spindle Official Final Action
Ash	Chapter: Sugars and Sugar Products Section: Sugars and Syrups	Ash, Official Final Action
Color	Visual Comparison Test (As described by the U.S. Standards for Grades of Extracted Honey, 7 CFR 52.1391)	The sample is placed in colorless cells of optical glass or plastic (internal width of 0.10 in. and outside diameter of 1-7/16 by 3-1/2 in.) and compared with U.S. Department of Agriculture permanent glass color standards.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial

Check the source to verify that this is the current version before use.

marketplace. All deliveries shall conform in every respect to the applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When required in the solicitation, contract, or purchase order, the quality assurance of the corn syrup shall be determined by the Federal Grain Inspection Service of the U.S. Department of Agriculture. The product shall be examined and/or tested in accordance with the salient characteristics and analytical requirements in the CID, and when applicable, the United States Standards for Condition of Food Containers currently in effect on the date of the solicitation.

Preservation, packaging, packing, labeling, and marking.

The corn syrup shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the contract or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

Notes.

Sources of documents:
