COMMERCIAL ITEM DESCRIPTION

PADS, ISOPROPYL RUBBING ALCOHOL IMPREGNATED

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-P-36792.

This commercial item description covers a rubbing alcohol saturated pad. The pad is for use as a "prep" or wipe or local anti-infective on skin.

Salient characteristics. Pads, Isopropyl Rubbing Alcohol Impregnated, shall be a fabric pad saturated with a sufficient amount of sterile Isopropyl rubbing alcohol, USP, individually packaged. Not more than 4 months shall have elapsed from the date of manufacture of this product to the date of delivery to the Government.

Package is to be hermetically sealed to prevent leakage. This leakproof seal is to insure a shelf life of about three years. The alcohol-proof printing on the package should list contents.

Size

1. Not smaller than 25 mm by 29 mm (1 inch by 1-1/8 inches) (plus 3 mm (1/8 inch) minus zero), a minimum of .5 ml of alcohol.

2. Not smaller than 44 mm by 44 mm (1-3/4 inches by 1-3/4 inches) (plus 2 mm (1/16 inch) minus zero), a minimum of 1.7 ml of alcohol.

3. The finished pad shall be either a single thickness of material or shall be folded to a double thickness of material. The finished pad shall be 35 mm (1-3/8 inches) wide (plus or minus 10 mm (3/8 inch) by 51 mm (2 inches long (plus or minus 16 mm (5/8 inch)). The fabric pad shall be fabricated from a single piece (one thickness or folded double) of suitable, non-toxic, non-irritating, absorbent material, and the dry pad shall weigh not less than 0.106 gram. The pad shall contain a minimum of 0.40 grams of alcohol.

Each impregnated pad shall be packaged and sealed in a foil-plastic laminate material that will preclude evaporation of the alcohol until manually opened.

The pad material shall not fray, abrade nor separate and there shall be no shedding during use. The pad material shall be free of oil spots, streaks, dirt, and other foreign matter and lumps.

Unit. Package (PG). For size 3, one package containing one hundred individually sealed pads, as specified, constitutes one unit. Packaging and packing quantities: Intermediate package shall contain 10 units, shipping container shall contain 40 units. Each individual package shall be marked in accordance with commercial practice. Marking shall include the lot (control) number and the legends "sterile" and "sterility guaranteed unless package is damaged or opened" or similar commercial legends.

The unit for Size 1 and 2 shall appear in the solicitation. Marking shall include the lot (control) number and the legends "sterile" and "sterility guaranteed unless package is damaged or opened" or similar commercial legends.

Workmanship. The pad shall be free from defects which detract from its appearance or impair its serviceability.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its contractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents THEREOF under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE. The following National Stock Numbers (NSN) are covered by this document:

SIZE	NSN	NOMENCLATURE
1	6510-00-690-6940	PAD, ISOPROPYL RUBBING ALCOHOL IMPREGNATED
2	6510-01-091-8200	PAD, ISOPROPYL RUBBING ALCOHOL IMPREGNATED
3	6510-00-786-3736	PAD, ISOPROPYL RUBBING ALCOHOL IMPREGNATED
