COMMERCIAL ITEM DESCRIPTION

SYRINGE, IRRIGATING, Plastic

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification GG-S-00945d(VAMI).

This commercial item description outlines plastic syringes for one time use in aspirating/irrigating medical procedures.

Salient characteristics. Syringe, Irrigating, plastic, shall be two piece, disposable, sterile, minimum 50 cc/1-3/4 oz. capacity, graduated in 1/4 or 1/2 oz. and/or 5 cc or 10 cc increments, individually packaged, with catheter tip and tip protector. The tip protector must be placed on catheter tip in such a manner that it must remain on the tip until removed manually. The tip protector must also serve as a means of containing the liquid contents in the syringe.

Type I - Bulb Type. Catheter tip opening to be a minimum of 3/16" ID. The bulb and syringe must be securely assembled for an air tight seal.

Type II - Plunger Type. The plunger and syringe must be securely assembled for an air tight seal.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking - Unless otherwise specified, preservation, packaging and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE. The following National Stock Numbers are covered by this document:

Type I - 6515-01-033-3471

Type II - 6515-01-033-3472

Copies of Federal Standard No. 376, Preferred Metric Units for General Use by the Federal Government, may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20420.
