COMMERCIAL ITEM DESCRIPTION

LANCET, FINGER BLEEDING

The General Services Administration has authorized the use of this commercial item description

This commercial item description covers disposable sterile lancets to be used for finger, toe or heel punctures to obtain blood for hematologic studies.

Salient characteristics. Lancet, Finger Bleeding, shall be sterile, disposable, and have a plastic ribbed body with corrosion resisting steel tri-beveled point. The body shall be 0.875 inches long (plus or minus 1.05 inches) with a nominal diameter of 0.250 inches. The piercing tip wire shank shall be molded into the body of the lancet, having a maximum wire diameter of 0.031 inches and shall extend 0.25 to 0.40 inches from the lancet body and be tapered to a sharp point. The point shall have a protective twist-off cover. The overall length including the tip (with protective cover removed) shall be 1.00 inches (plus or minus 0.05 inches). Packed 200 per package, 25 packages per case

Sterile. The sterility assurance level of the lancet piercing tip shall be 10^{-6} in accordance with FDA Guidelines

Workmanship. The finger bleeding lancet shall be free from defects which detract from it's appearance or impair it's serviceability. The lancet tip shall be straight, sharp and free from burrs or deformation. Plastic shall be smooth and free from flash

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable

The contracting officer has the option of accepting or rejecting the product.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided in the terms of the contract

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror contractor is encouraged to use recovered materials in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation subpart 23.4 - to the maximum extent practical.

Preservation, packaging, packing, labeling and marking - Unless otherwise specified, preservation, packaging and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number (NSN) is covered by this document:

NATIONAL STOCK NUMBER (NSN)	NOMENCLATURE
6515-01-119-8407	LANCET, FINGER BLEEDING, 5000's
6515-01-119-7917	LANCET, FINGER BLEEDING, 200's

Copies of Federal Standard No. 123, Preferred Metric Units for General Use by the Federal Government, may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20420.

Ordering data - Purchasers should select the preferred options permitted herein, and include the following information in procurement documents:

(a) Title, number, and date of this commercial item description.
