DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
NUCLEAR CERTIFICATION PLAN (NCP)	DI-NUOR-81409

3. DESCRIPTION/PURPOSE

3.1 The NCP defines the process and structure for the certification of a weapon, weapon system, subsystem, and associated facilities and equipment. The NCP provides the definitive plan to accomplish nuclear certification of the weapon system. The NCP defines all of the activities and tasks that must be accomplished for nuclear certification of the weapon system. This plan contains submittal schedules of the nuclear certification documentation, the task assignments of the various nuclear certification process tasks, and defines the configuration that will undergo nuclear weapon system certification.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
940729	F/SA-ALC-NWI		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for data resulting from the work task described by 90.1 of MIL-STD-1822.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F7046

10. PREPARATION INSTRUCTIONS

10.1 Format. Contractor format is acceptable.

10.2 Content. The content of the NCP shall be as defined below:

10.2.1 The introductory section shall:

a. Define the relationship between the nuclear weapon system certification milestones and the weapon system milestones.

b. Outline the nuclear certification process for the weapon system.

c. Describe the involvement of the government agencies responsible for the certification of the system.

d. Define the adherence of the system to the policies for nuclear surety and (for aircraft systems) weapon system or nuclear weapon compatibility.

(Continued on page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Block 10, Preparation Instructions (Continued)

e. Describe the reviews and testing necessary to support nuclear certification, and system design requirements (and their partitioning into the specific requirements) as they relate to hardware, software, and test requirements.

10.2.2 The second section shall define the configuration of the system that will be nuclear certified. This section shall list the component parts of the nuclear weapon system that are to be nuclear certified.

10.2.3 The third section shall define the implementation tasks necessary to obtain nuclear certification of the weapon system. The implementation tasks shall be:

a. Compatibility tasks for the missile/warhead (for aircraft systems, if applicable).

b. Compatibility tasks for bombs (for aircraft systems, if applicable).

c. Nuclear surety tasks.

d. Computer systems certification tasks.

e. Support equipment tasks.

f. Technical order tasks.

g. Facilities and equipment tasks.

h. Training tasks.

10.2.4 The fourth section shall contain milestones for the defined nuclear certification tasks.
