DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE
AIRCRAFT NUCLEAR WEAPON SYSTEM DEFINITION DOCUMENT

2. IDENTIFICATION NUMBER
DI-NUOR-81413

3. DESCRIPTION/PURPOSE
3.1 This document defines the nuclear configuration of the aircraft's avionics and nuclear weapon delivery systems, including test and support equipment. The nuclear configuration is defined by the hardware and software components of the aircraft's avionics system and nuclear weapon delivery system.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
940729	F/SA-ALC-NWI		

7. APPLICATION/INTERRELATIONSHIP
7.1 This Data Item Description (DID) contains the format and content preparation instructions data resulting from the work task described by 90.8 of MIL-STD-1822.

7.2 The document is used by the government to maintain the nuclear configuration of the aircraft's nuclear weapon system.

7.3 This DID is related to DI-NUOR-81409 , Nuclear Certification Plan.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F7050

10. PREPARATION INSTRUCTIONS

10.1 Format. Contractor format is acceptable.

10.2 Content. The content and format of this document shall be divided into three sections as defined below:

10.2.1 The first section of the document defines the nuclear hardware configuration of the aircraft's avionics system and the aircraft's nuclear weapon delivery system. This section shall define the nuclear hardware components in a table format. The table shall cover the avionics system and the nuclear weapon delivery system components. The contents of the table shall be:

a. The official configuration item nomenclature for each nuclear hardware component.

b. The descriptive title each hardware component or line replaceable unit is known by.

c. A description of the function each hardware component serves within its system.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT
DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Block 10, Preparation Instructions (Continued)

10.2.2 The second section of the document defines the nuclear software configuration of the aircraft's avionics system and the aircraft's nuclear weapon delivery system. The nuclear configuration shall be defined in this section by the nuclear avionics software. This section shall define the nuclear software components in a table format. The contents of the table shall be:

a. The contractor computer program identification number for each nuclear software component.

b. The descriptive title of each software component.

c. A description of the function each software component serves within its system.

d. The hardware components each software component is associated with.

10.2.3 The third section is used to clarify and expand the nuclear configuration item table entries. This section shall be used to include test and support equipment and information that does not readily fit into a table format.
