MILITARY SPECIFICATION

MOUNTING ADAPTER ASSEMBLY,

AIRPORT MARKER LIGHT

This specification is approved for use by the Mobility Equipment Research and Development Command, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers a mounting adapter assembly to mount a marker light fixture on a stake or mast.

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents of the issue in effect on date of invitation for bids or request for proposal form a part of this specification to the extent specified herein:

SPECIFICATIONS

FEDERAL

QQ-S-781	- Strapping, Steel, and Seals.
PPP-B-601	- Boxes, Wood, Cleated-Plywood.
PPP-B-636	- Boxes, Shipping, Fiberboard.

MILITARY

MIL-P-116	- Preservation-Packaging, Methods of.

FSC 6210

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: US Army Mobility Equipment Research and Development Command, ATTN: DRDME-DS, Fort Belvoir, VA 22060 by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

(Copies of specifications, standards, and drawings required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Description. The mounting adapter assembly shall be in accordance with Top Assembly TA13217E7593 and as specified herein.

3.1.1 Drawings. The drawings forming a part of this specification are end product drawings. No deviations from the prescribed dimensions or tolerances is permissible without prior approval of the contracting officer. Where tolerances could cumulatively result in incorrect fits, the contractor shall provide tolerances within those prescribed on the drawings to insure correct fit, assembly, and operation of the mounting adapter. Any data (e.g. shop drawings, layouts, flow sheets, processing procedures, etc.) prepared by the contractor or obtained from a vendor to support fabrication and manufacture of the production item shall be made available, upon request, for inspection by the contracting officer or his designated representative.

3.2 Material. Material shall be as specified herein and on the applicable drawings. Materials not specified shall be selected by the contractor and shall be subject to all provisions of this specification (see 6.3).

Check the source to verify that this is the current version before use.

3.3 Identification marking. Each mounting adapter assembly shall be identified in accordance with MIL-STD-130, method optional.

3.4 Workmanship. The mounting adapters shall be free from defects or imperfections that might affect their serviceability or appearance. External surfaces shall be free of burrs, sharp edges and corners, except when sharp edges and corners are required, or where they are not detrimental to safety.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.2 Classification of inspections. The inspection requirements specified herein are classified as follows:

(a) Quality conformance inspection (see 4.3).
(b) Inspection of packaging (see 4.5).

4.3 Quality conformance inspection.

4.3.1 Sampling. Sampling for examination shall be in accordance with MIL-STD-105, Inspection Level I.

4.3.2 Examination. Mounting adapters selected in accordance with 4.3.1 shall be examined as specified in 4.4.1. AQL shall be 2.5 percent defective for major defects and 4.0 percent defective for minor defects.

4.4 Inspection procedures.

4.4.1 Examination. The sample mounting adapters shall be examined for the characteristics listed in Table I and as specified in 4.3.2.

Table I. Examination Schedule

Number	Characteristic	Requirement Paragraph
Major		
101.	Dimensions that affect form, fit, or function.	3.1
102.	Material not as specified.	3.2
Minor		
201.	Dimensions that do not affect form, fit, or function.	3.1
202.	Identification markings not in accordance with MIL-STD-130.	3.3
203.	Workmanship not as specified.	3.4

4.5 Inspection of packaging.

4.5.1 Quality conformance inspection of pack.

4.5.1.1 Unit of product. For the purpose of inspection, a completed pack prepared for shipment shall be considered a unit of product.

4.5.1.2 Sampling. Sampling for examination shall be in accordance with MIL-STD-105.

4.5.1.3 Examination. Samples selected in accordance with 4.5.1.2 shall be examined for the characteristics listed in Table II. AQL shall be 2.5 percent defective for major defects and 4.0 percent defective for minor defects.

Table II. Examination Schedule

Number	Characteristic	Requirement Paragraph
Major		
103.	Preservation not Level A, Level B, or Commercial as specified (see 6.2).	5.1
104.	Mounting adapter not preserved for Level A as specified.	5.1.1
105.	Mounting adapter not preserved for Level B as specified.	5.1.2
106.	Mounting adapter not preserved for Commercial in accordance with MIL-STD-1188.	5.1.2
107.	Packing not Level A, Level B, or Commercial as specified (see 6.2).	5.2
108.	Mounting adapter not packed for Level A as specified.	5.2.1
109.	Mounting adapter not packed for Level B as specified.	5.2.2
110.	Mounting adapter not packed for Commercial in accordance with MIL-STD-118.	5.2.3
Minor		
204.	Marking for military level of protection not in accordance with MIL-STD-129.	5.3.1
205.	Marking for Commercial level of protection not in accordance with MIL-STD-1188.	5.3.2

5. PACKAGING

5.1 Preservation. Preservation shall be Level A, Level B, or Commercial as specified (see 6.2).

5.1.1 Level A. Unprotected metal surfaces of the mounting adapter assemblies shall be coated with Type P-1 preservative. The preservative shall conform to and shall be applied in accordance with MIL-P-116. Each mounting adapter assembly shall then be preserved individually in accordance with MIL-P-116, Method III in a close-fitting box conforming to PPP-B-636, W6c, style optional. Box closure shall be in accordance with the appendix to the box specification, Method V.

Check the source to verify that this is the current version before use.

5.1.2 Level B. Preservation shall be as specified in 5.1.1 for Level A except that boxes shall conform to PPP-B-636, Type CF, Class Domestic, Variety SW, Grade 125, stype optional and Method V closure of the boxes will not be required.

5.1.3 Commercial. Mounting adapter assemblies shall be preserved in accordance with MIL-STD-1188.

5.2 Packing. Packing shall be Level A, Level B, or Commercial as specified (see 6.2).

5.2.1 Level A. The mounting adapter assemblies shall be packed in close-fitting boxes conforming to PPP-B-601, Overseas Type, Style I or J. Strapping shall conform to QQ-S-781, Class 1, Type I or IV, size as applicable. Unless otherwise specified (see 6.2), strapping shall be Finish B. When specified (see 6.2), strapping shall be Finish A.

5.2.2 Level B. The mounting adapter assemblies shall be packed as specified in 5.2.1 for Level A except that boxes shall be Domestic Type and strapping shall be Finish A.

5.2.3 Commercial. Mounting adapter assemblies shall be packed in accordance with MIL-STD-1188.

5.3 Marking.

5.3.1 Military packaging. Marking shall be in accordance with MIL-STD-129.

5.3.2 Commercial packaging. Marking shall be in accordance with MIL-STD-1188.

6. NOTES

6.1 Intended use. The mounting adapter assembly is intended for use in mounting a marker light fixture assembly on a stake or mast.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification.
(b) Degree of preservation and degree of packing required (see 5.1 and 5.2).
(c) When strapping shall be Finish A (see 5.2.1).

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS: This form is provided to solicit beneficial comments which may improve this document and enhance its use. DoD contractors, government activities, manufacturers, vendors, or other prospective users of the document are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity. A response will be provided to the submitter, when name and address is provided, within 30 days indicating that the 1426 was received and when any appropriate action on it will be completed.
NOTE: This form shall not be used to submit requests for waivers, deviations or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
