2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION (FDA)

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204)

U.S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia (USP).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042)

The National Formulary (NF).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042)

3. REQUIREMENTS

3.1 Material. Shall be Chloramphenicol Ophthalmic Solution, USP, 0.5 percent.

3.1.1 Assay. Shall assay within the applicable assay limits for the solution.

3.2 Ingredients.

3.2.1 Chloramphenicol. Chloramphenicol used in the ophthalmic solution shall be in accordance with the tests, standards, and requirements of the USP, including any supplements or revisions thereto.

3.2.2 Other ingredients. All other ingredients entering into the finished ophthalmic solution shall be of the USP or NF quality, or if not included in either of these compendia, the ingredients shall be suitable for use in ophthalmological solutions.

Check the source to verify that this is the current version before use.

3.3 Certification. The finished solution shall be in accordance with the applicable regulations concerning Certification of Antibiotics and Antibiotic-Containing Drugs, as promulgated by the FDA. Each lot shall be certified by the FDA.

3.4 Sterility. The ophthalmic solution shall be sterile when tested in accordance with the USP.

3.5 Expiration dating period. The expiration dating period shall be not less than 18 months.

3.5.1 Delivery. Not more than 3 months of the expiration dating period shall have elapsed at time of delivery to the Government.

3.6 Workmanship. Workmanship shall be first class throughout. Material and its containers shall be free from defects which detract from their appearance or may impair their serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the items to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform and homogeneous quantity of finished solution produced from one formulation, subjected to the same compounding and manufacturing operations, and filled into final containers.

Check the source to verify that this is the current version before use.

4.3 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.4 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product sahll be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

4.5 Tests and examinations. Tests and examinations shall be performed to determine compliance with all requirements of this document and all referenced documents.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186 (see 6.3) and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (see 6.1).

5.2.1 Unit of issue. One bottle containing 7.5 ml, as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. Immediate container shall be a commercially available immediate container considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way be each other.

5.2.2.2 Unit package. At the option of the contractor, a unit package may be furnished. If furnished, each bottle shall be packaged as specified in 5.2.5 of PPP-C-186. As an alternate, the unit package may be a clean transparent plastic vial with a plug-type or sleeve-type closure.

5.2.2.3 Intermediate package. Twelve units of issue shall be packaged as specified in 5.2.7.1 of PPP-C-186.

Check the source to verify that this is the current version before use.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C, as specified (see 6.1).

5.3.1 Level A. Thirty-six intermediate packages (432 units) shall be packed as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Thirty-six intermediate packages (432 units) shall be packed as specified in 5.4.3.1.1 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act, and shall include the information required below:

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.

(b) the expiration date.

5.4.1.2 Unit packages. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.

(b) the National Stock Number.

(c) extended potency lines.

NOTE: (1) the National Stock Number shall not be preceded by any prefix.

(2) Strip labeling may be used.

(3) Label adhesion test shall not apply.

(4) If a unit package is not supplied, the National Stock Number and extended potency lines shall appear on the immediate container label. If the unit package is supplied and the design of the unit package is such

that all labeling on the immediate container is readily visible from the outside, marking of the unit package will not be required; however, the national stock number and extended potency lines shall appear on the immediate container if the national stock number and extended potency lines do not appear on the unit package.

5.4.2.2 Intermediate package. Each intermediate package shall be marked as specified in 5.5.3 of PPP-C-186. Type II Shelf Life Marking as specified in MIL-STD-129 shall be shown. Marking shall include the legend: "STORE BETWEEN $2^{o}$ - $8^{o}$ C ($35^{o}$ - $46^{o}$ F)".

5.4.2.3 Exterior container. Exterior containers shall be marked as specified in 5.5.4 of PPP-C-186. Type II Shelf Life Marking as specified in MIL-STD-129 shall be shown. Marking shall also include the legend: "STORE BETWEEN $2^{o}$ - $8^{o}$ C ($35^{o}$ - $46^{o}$ F)".

NOTE: The unrefrigerated shipping time for this item shall be not more than six days (144 hours).

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (see 5.2 and 5.3).

6.2 This specification covers the following item(s):

| National Stock No. | Item Identification |
|---|---|
| 6505-00-126-2037 | CHLORAMPHENICOL OPHTHALMIC SOLUTION, USP, 0.5%, 7.5 ml |

6.3 All references to PPP-C-186 refer to Interim Federal Specification PPP-C-00186B which is mandatory for use until superseded by a revision.

# STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
