AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

PAPER, CORRECTION

This amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. The General Services Administration has authorized this amendment as part of Interim Federal Specification UU-P-C0175(GSA-FSS), dated August 2, 1965.

PAGE 1

Paragraph 2.1, below "TT-I-544", delete in its entirety and substitute the following:

"UU-P-121 - Paper, Bond and Writing; White and Colored.
UU-P-268 - Paper, Kraft, Untreated, Wrapping.
PPP-B-636 - Boxes, Shipping, Fiberboard.
DDD-R-311 - Ribbons, Typewriter.

Federal Standards:

Fed. Std. No. 123 - Marking for Domestic Shipment (Civil Agencies).
Fed. Test Method Std. No. 147 - Tapes, Pressure-Sensitive and Gummed, Method of Inspection Sampling, and Testing.

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards and Handbooks as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

(Single copies of this specification and other Federal Specifications required by activities outside the Federal Government for bidding purposes are available without charge from Business Service Centers at the General Services Administration Regional Office in Boston, New York, Washington, DC, Atlanta, Chicago, Kansas City, MO, Fort Worth, Denver, San Francisco, Los Angeles, and Seattle, WA.

(Federal Government activities may obtain copies of Federal Specifications, Standards and Handbooks and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

Military Standards:

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 - Marking for Shipment and Storage.

(Copies of Military Specifications and Standards required by contractors with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)"

Paragraph 2.1, below the last paragraph insert the following:

PAGE 1 (continued)

"2.2 Other publication. The following documents form a part of this specification to the extent specified herein. Unless a specific issue is identified, the issue in effect on date of invitation for bids or request for proposal shall apply.

Technical Association of Pulp and Paper Industry (TAPPI) Standards:

T 402 - Conditioning Paper and Paperboard for Testing.
T 403 - Bursting Strength of Paper.
T 404 - Tensile Breaking Strength of Paper and Paperboard.
T 410 - Weight Per Unit Area (Basis Weight or Substance) Paper and Paperboard.
T 425 - Opacity of Paper.
T 452 - Brightness of Paper and Paperboard.
T 479 - Smoothness of Printing Paper.
RC 285 - Sheffield Smoothness.

(Application for copies should be addressed to the Technical Association of Pulp and Paper Industry, One Dunwoody Park, Atlanta, GA 30341.)

(Technical society and technical association specifications and standards are generally available for reference from libraries. They are also distributed among technical groups and using Federal agencies.)

PAGE 2

Paragraph 3.1.1, delete "Table I" in its entirety and substitute the following:

TABLE I. Physical requirements of paper stock without adhesive

Characteristics	Requirements	TAPPI Test Method No.
Bursting strength, average, point, minimum.	20	T-403
Tensile breaking strength, average, minimum:		T-404
Machine direction, pounds/inch width	20	
Cross direction, pounds/inch width	10	
Basis weight, 25 x 38 500 pounds, minimum.	42	T-410
Opacity, average, percent, minimum.	87	T-425
Brightness, average, percent, minimum.	80	T-452
Finish (smoothness), felt side:		
Bekk	25 to 50	T-479
Sheffield	100 to 150	RC-285

Paragraph 3.3, delete and substitute:

"3.3 Adhesion. When tested in accordance with method 10 of Fed. Std. No. 147, the average initial adhesion shall be not less than 60.0 ounces per inch of width. After aging the correction paper for ten days at a temperature of 60° ± 2°C (140° ± 3.6°F), the adhesion shall be not less than 60.0 ounces per inch of width."

PAGE 4

Paragraph 4.4.1, delete and substitute:

"4.4.1 Paper stock tests. Samples taken in accordance with 4.2.3.1 shall be subjected to the following tests. Failure to pass the test(s) shall be considered cause for rejection of the lot as not meeting the material requirements of this specification (see 3.1.1 and table I). The paper shall be conditioned and tested under uniform atmospheric conditions as stated in TAPPI method T-402.

PAGE 4

Test	TAPPI Test Method
Atmospheric conditions	T 402
Bursting strength	T 403
Tensile breaking strength	T 404
Basis weight	T 410
Opacity	T 425
Brightness	T 452
Finish (smoothness):	
Bekk	T 479
Sheffield	RC 285"

PAGE 5

Paragraph 4.4.2, in the second line delete "method 102 of UU-P-31." and substitute, "TAPPI Method T 402".

Paragraph 4.4.2.1, in the first and second line delete "in method 100 of UU-P-31." and substitute "Method 10 of Fed. Std. No. 147.", and in the fourth line delete "Method 100." and substitute "Method 10 of Fed. Std. No. 147."

Paragraph 4.4.2.3, in the seventh line delete "Grade A" and substitute "Type I, any class", and in the eight line delete "93" and substitute "92 $\pm$ 2".

PAGE 6

Below paragraph "5. PREPARATION FOR DELIVERY" delete the entire sentence.
