FEDERAL SPECIFICATION

PAPER, CARBON, PENCIL

This amendment, which forms a part of Federal Specification UU-P-154c, dated November 30, 1960, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

Page 1, paragraph 2.1: Under *"Federal Specifications"* add the following: "PPP-T-45—Tape, Gummed, Paper, Reinforced."

Page 2, paragraph 4.1: Delete first sentence and substitute: "Unless otherwise specified (see 6.2), the supplier is responsible for the performance of all inspection requirements as specified herein."

Page 4, table IV: Under "Examine" and "Defects," delete the following:

"Uniformity of coating (Hold so that bright light strikes back of sheet)	Any area coated so lightly as to be translucent. Light lines and non-uniform appearance of coating. Flaking."

Substitute for above:

"Coating (see 4.4.5)	Flaking."

Page 4, paragraph 4.4.3: Following heading, insert "(See 4.4.5.)".

Page 6: Following paragraph 4.4.4 (cont'd.), add new paragraph 4.4.5 as follows:

"**4.4.5** *Uniformity of coating.*—Five sample sheets of carbon paper, taken as specified in 4.3.4, shall be examined for uniformity of coating by holding each sheet so that a bright light strikes the back of the sheet. When the coating on any of the sheets appears to be non-uniform to the extent that the performance of the carbon paper would be adversely affected, a 2- by 6-inch specimen, taken from the questionable area, shall be subjected to the tests specified in 4.4.3. Failure to meet the serviceability and/or manifolding test requirements shall be cause for rejection of the lot."

Page 7, paragraph 5.2.2 (cont'd.), lines 1 through 8: Delete sentence beginning "All flaps * * * ." and substitute: "All flaps of the fiberboard shipping containers shall be securely sealed with an adhesive commercially used for the specific product being packed by application throughout the entire area of contact between the flaps; by a combination of metal stitching the bottom flaps and sealing the top flaps with adhesive; or by using tape not less than 3 inches in width conforming to type I of Federal Specification PPP-T-45, applied over center seams only and extending over ends for a distance of not less than 2½ inches."

Page 7, paragraph 6.2: Add:

"(*f*) Data, as required, regarding examination and tests, and inspection responsibility (for civil agencies only) if other than as specified in 4.1."
