DETAIL REQUIREMENTS

Design Requirements. The design requirements shall be as specified below.

1. Material. The material shall be in accordance with the procurement specification MIL-DTL-15024 or as specified in the contract.

2. Cable size. As specified in the contract or as specified by the contracting officer.

3. Marking. The information to be marked on the cable band shall be as follows (see figure 1). Marking method shall be permanently stamped in accordance with SAE AS5942.

a. Line 1. Type designation and length if part of the nomenclature. The length shall be in feet and inches or in metrics and shall be shown in parentheses.

b. Line 2. Procurement identification number or contract number.

c. Line 3 (if space permits). Manufacturer's name or manufacturer's CAGE Code as listed in Cataloging Handbook H4 or at www.SAM.gov.

d. Line 4 (if space permits). National Stock Number (NSN).

4. Color. The color of the band shall be yellow except that warning labels shall be red with white markings, color style VI in accordance with MIL-DTL-15024. Bands for camouflage specifications shall be black with white markings, color style II in accordance with MIL-DTL-15024.

5. Tubing. Bands for cable with jackets having a heat resistance greater than class 1 of SAE AMS-DTL-23053/5 shall be of appropriate tubing conforming to SAE AMS-DTL-23053.

Test Requirements. Test requirements shall be as specified in table I. ASTM D2671 has additional test requirements and may be used if specified in the contract or by the contracting activity.

TABLE I. Test requirements.

Item	MIL-DTL-15024	
	Test	Requirement paragraph
1	Moisture resistance	4.3.1.2
2	Solvent resistance	4.3.1.3
3	Flammability	4.3.1.6
4	Abrasion resistance	4.3.17
5	Thermal shock	4.3.1.9
6	Fungus	4.3.1.11
