MILITARY SPECIFICATION SHEET

PLATE, IDENTIFICATION, END-ITEM ATTACHMENTS

This specification sheet is approved for use by all Departments and Agencies of the Department of Defense.

The complete requirements for procuring the end-item attachments identification plates described herein shall consist of this document and the latest issue of MIL-P-15024.

REQUIREMENTS

1. Application. The identification plates and their installation shall be in accordance with the Metal Name Plate Industry Standards and Practices, the end-item specification, and MIL-P-15024, in the above order of precedence.

2. Plate type. Unless otherwise specified, the plates shall be Type A or H aluminum plates, having Type A minimum thickness, and shall be fastened at the corners with metal fasteners. When specified by the procuring activity or when permitted by the end-item specification, the plates may be Type G adhesive-backed metal foil. When Type G foil plates are required, the mounting holes and bosses of the plate shall be replaced with standard corner radii.

3. Size. Unless otherwise specified, the plate shall be Size 12 (Ref. 5x3 inches).

4. Format and information. The format and information on the plate shall be as shown on Figure 1.
