A-A-1615
INTERIM AMENDMENT-1
April 20, 1989

INTERIM AMENDMENT

TO

COMMERCIAL ITEM DESCRIPTION

ENVELOPE, MAILING

This interim amendment was developed by the General Services Administration, Office Supplies & Paper Products Commodity Center, New York, NY 10278, based upon currently available technical information. The General Services Administration has authorized the use of this interim amendment as a part of A-A-1615 dated March 17, 1981.

In "Salient characteristics", under "Physical properties" paragraph, for "Color and finish", delete the words "Shall conform to standard sample." and substitute:

"The color shall be light brown kraft. The finish shall be smooth, suitable for writing on with ink when tested in accordance with paragraph 4.4.2 of Federal Specification UU-E-525A, dated March 7, 1966, and Interim Amendment-1, dated May 25, 1972."

Delete the paragraph entitled "Note".

Delete paragraph "Regulatory requirements." in its entirety and substitute with the following paragraphs:

"Regulatory requirements. The contractor shall certify that the envelope offered shall include a minimum of 50% waste paper and the chipboard inserts offered shall include a minimum of 90% postconsumer recovered materials. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

"Waste paper" means any of the following materials:

(1) Postconsumer materials such as:

(i) Paper, paperboard, and fibrous wastes from retail stores, office buildings, homes, and so forth, after they have passed through their end usage as a consumer item, including: Used corrugated boxes, old newspapers, old magazines, mixed waste paper, tabulating cards, and used cordage, and

(ii) All paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste; and

(2) Manufacturing, forest residues, and other wastes such as:

(i) Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: Envelope cuttings, bindery trimmings, and other paper and paperboard waste, resulting form printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and;

(ii) Finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others;"
