COMMERCIAL ITEM DESCRIPTION

STOPPER, WASTE DRAIN

The General Services Administration has authorized the use of this commercial item description for all federal agencies.

1. SCOPE

1.1 Scope. This commercial item description covers waste drain stoppers for use with sinks, bath, and laundry tubs.

2. CLASSIFICATION

2.1 Classification. The stoppers shall be of the following size, as specified (see 7.2).

Size - 1 inch (25.4 mm)
Size - 1-1/8 inch (28.5 mm)
Size - 1-1/4 inch (31.7 mm)
Size - 1-3/8 inch (34.9 mm)
Size - 1-1/2 inch (38.1 mm)

3. SALIENT CHARACTERISTICS

3.1 Standard product. Except as otherwise specified, stoppers covered by this commercial item description shall be the manufacturer's standard commercial product. Materials not specifically specified shall be the quality used in commercial practice.

3.2 Construction. The stopper shall be of a one-piece solid rubber or suitable elastomeric material molded with a rubber post and provided with a stainless steel or copper alloy ring for attaching a chain.

3.2.1 Finish. The stopper ring shall be finished in accordance with the manufacturer's commercial practice for stainless steel, or nickel plated for copper alloy.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor St., Fort Worth, TX 76102

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

3.2.2 Size. The size of the stopper shall be as specified (see 2.1 and 7.2). The size specified applies to the outside diameter at the bottom of the stopper ± 1/64 inch (0.39 mm).

3.3 Color. The color of the stoppers shall be uniform white.

3.4 Workmanship. The stoppers shall be free of defects that may impair serviceability, durability, or appearance.

3.5 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parentheses are for information purposes only.

3.6 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

3.7 Commercial item. The use of the term "commercial item" in this document does not imply that any item or items offered are not required to conform with all requirements specified herein.

4. REGULATORY REQUIREMENTS

4.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

6. PACKAGING

6.1 Packaging. Preservation, packing, and marking shall be as specified in the contract or order.

7. NOTES

7.1 Part Identification Number (PIN). Waste drain stoppers conforming to this commercial item description shall be identified by a part number configuration consisting of identification of a portion of the CID number and size. An example of the part number configuration is shown below. This part numbering system is intended for identification and cross-indexing of the item within the Federal cataloging system. The following part identification numbering procedure is for government purposes and does not constitute a requirement for the contractor.

AA2124-1 Example: (AA2124-1 = Size 1)

- Size - 1, 2, 3, 4, or 5
- Commercial item description number.

7.2 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number and date of this commercial item description.
b. Size (See 2.1).
c. The preservation, packing, and marking desired.

7.3 National Stock Numbers (NSNs): The following is a list of NSNs that reference this CID. The list may not be indicative of all possible NSNs associated with this CID.

4510-00-242-4358 - 1 inch	AA2124-1
4510-00-242-4359 - 1 1/8 inch	AA2124-2
4510-00-242-4357 - 1 1/4 inch	AA2124-3
4510-00-242-4360 - 1 1/2 inch	AA2124-4
4510-00-279-0497 - 1 3/8 inch	AA2124-5

MILITARY INTERESTS:

NONE: DoD has no registered interest in revisions to this Commercial Item Description until further notice.
