COMMERCIAL ITEM DESCRIPTION

HELMET, SAFETY (ELECTRICAL WORKER'S)

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification GGG-H-177.

This commercial item description covers requirements for helmets intended for use as protection from impact of falling and flying objects and from high-voltage electric shock.

Salient characteristics.

The safety helmet shall consist of a shell, headband, sweatband, crown straps, adjustable chin strap, and nape strap. The helmet shell shall be a cap style with a peak measuring 1-1/2 to 3 inches long. The colors of the helmets shall be in accordance with Fed. Std. No. 595 as follows:

Red	No. 11105
Orange	No. 12197
White	No. 17875
Yellow	No. 23793

The helmet shall meet the requirements for Type 2, Class B helmets in ANSI Standard Z89.1 - Requirements for Protective Headwear for Industrial Workers. In addition, the helmets shall carry the certification of the Safety Equipment Institute (SEI).

The issue of Fed. Std. No. 595 and ANSI Z89.1 in effect on the date of the solicitation shall be used to determine compliance with these requirements.

Workmanship. The helmets shall have no sharp edges or burrs, and shall be free from any other defects which detract from their appearance or which may impair their serviceability.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Notes:

The commercial item certification clause is not required when this commercial item description is used for procurement.

Purchasers should specify the color required.
