INTERIM COMMERCIAL ITEM DESCRIPTION

ELECTROLYTE SOLUTION, ORAL

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be ELECTROLYTE SOLUTION, suitable for infants. Shall contain the following ingredients in each liter of solution:

Chloride	35 mEq
Citrate	30 mEq
Dextrose	25 Gram
Potassium	20 mEq
Sodium	45 mEq

All ingredients shall be of pharmaceutical grade.

Shall be supplied in a commercially available glass bottle.

Workmanship. The solution shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package, containing twenty-four eight ounce glass bottles, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
