COMMERCIAL ITEM DESCRIPTION

FIXATIVE, CYTOLOGY (Aerosol Spray)

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers an aerosol spray for use in fixation of smears taken for cytological stains.

Salient characteristics:

Shall be a can of aerosol spray for use in fixation of smears taken for cytological stains.

Shall contain 100 to 110 milliliters (ml) of fixative.

Shall have the following formulation:

PVP K-30 resin	1.82%
Benzyl alcohol	0.13%
Isopropyl alcohol	58.05%
Propellant (non-chlorofluorocarbon)	40.00%

Commercial tolerances shall apply to the formulation.

Workmanship. The aerosol can of spray shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twelve aerosol spray cans of cytological fixative, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

AMSC N/A FSC 6550

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspection and testing. Inspection and testing shall be conducted in accordance with commercial practice to determine compliance with specification requirements.

Sampling for inspection and testing. Sampling for inspection and testing shall be conducted in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.
