COMMERCIAL ITEM DESCRIPTION

CARTRIDGE EXTRACTION ASSEMBLY, SAMPLE PROCESSOR

The General Services Administration has authorized the use of this commercial item description.

This Commercial Item Description covers an extraction cartridge for use with a DuPont automated sample processor in extraction of cannaboid.

Salient Characteristics.

Shall be an extraction cartridge for use with the DuPont PREP automated sample processor in the preparation of tetrahydrocannabinol (THC) samples from urine, for purposes of confirmation by gas chromatography after initial detection by use of an RIA test kit.

Shall consist of a cap, effluent cup, and a sample reservoir with a resin bed. The resin bed shall be designed for the extraction of cannabinoid metabolite from urine.

Shall be compatible with the DuPont PREP processor in the automatic separating, extracting and concentrating analytes from a urine sample.

Workmanship. The extraction cartridge shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing one hundred and forty-four cartridge extraction assemblies, as specified, constitutes one unit.

AMSC N/A FSC 6630

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection and testing. Inspection and testing shall be conducted in accordance with commercial practice to determine compliance with specification requirements.

Sampling for inspection and testing. Sampling for inspection and testing shall be conducted in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractor/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6630-01-151-6418

The RIA test kit intended for use in the initial detection of THC from urine samples is stock listed under NSN 6550-01-130-6277.

Ordering data. Expiration dating period required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.

INSTRUCTIONS In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
