COMMERCIAL ITEM DESCRIPTION

ALBUMIN HUMAN, USP, Heat Treated

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-A-36561 which is cancelled.

Salient characteristics:

Shall be Albumin, USP, Heat-Treated.

Shall be in accordance with the requirements of the USP.

Materials used in manufacture shall be of pharmaceutical grade.

For Strength 1, shall contain 5 percent Albumin within the applicable assay limits for the solution.

For Strength 2, shall contain 25 percent Albumin within the applicable assay limits for the solution.

For Size 1, shall be supplied 50 ml in a vial with an administration set consisting of the following components:

a. Piercing device with a protective cap
b. Bacterial retention air inletting filter cap
c. Drip chamber
d. Tubing (approximately 77 inches)
e. Flow-control clamp
f. Injection bulb
g. Needle adapter with protective cap
h. 18 or 20 gage, 1-1/2 inch (3.81 cm) IV needle individually packaged in a sterile plastic cartridge. As an alternate, a sterile 18 or 20 gage, 1-1/2 inch (3.81 cm) IV needle in a protective cap may be attached to the needle adapter.

For Size 2, shall be supplied as 250 ml in a vial with an appropriate IV hanger and administration set.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Samples of the final, filled immediate containers shall be submitted as directed in Note 1.

Workmanship. The solution shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG).

For Size 1, one package containing one 50 ml vial, together with an administration set, as specified, constitutes one unit.

For Size 2, one package containing one 250 ml vial, together with an appropriate IV hanger and administration set, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE 1: The quality assurance representative, when inspection is at source, or the contractor, when inspection is at destination, shall send the following by the fastest route directly to:

Department Biologics Research, DCD&I, WRAIR
Bldg 501, F. Glen Section
Walter Reed Army Medical Center
Washington, DC 20307-5100

1. Three (3) Unit Packages (including circulars) from each lot or batch, accompanied by a DD Form 1222 bearing the following information:

a. National Stock Number
b. Item Identification
c. Contract number
d. Contractor's name and address
e. Lot or control number
f. Quantity of material represented by the sample

2. One (1) copy of the protocol which the manufacturer has submitted to the Office of Biologics Research and Review (OBRR) stating the essential manufacturing processes and results of tests for each lot or batch.

3. One (1) copy of Office of Biologics Research and Review (OBRR) release for each lot or batch.

Shipment of material shall not be withheld for a report from Walter Reed Army Institute of Research.
